University Policies

The academic year for this catalog is Fall 2025 through August 21, 2026.

The policy and academic requirements information in this catalog are for the 2025-2026 Catalog/Handbook and are effective as of June 2, 2025. Students are governed by the catalog/handbook in effect at the time of their initial enrollment in their degree program, unless they elect to follow a subsequently published catalog/handbook.

This catalog/handbook is not a contract and is subject to change at any time by Rocky Vista University. The University reserves the right to modify policies, procedures, and requirements as necessary, with reasonable notice to affected students through official university communication channels. When individual program policies differ from University policies, the program-specific policies govern academic requirements for that program; for all other matters, University policies apply. Questions regarding policy applicability should be directed to the Registrar's Office.

Rocky Vista University has made every reasonable effort to ensure that all information in this catalog is accurate as of June 2, 2025. The University reserves the right to interpret all policies and procedures contained herein. In situations not specifically addressed, decisions will be made based on administrative discretion, applicable board policies, and state and federal law, consistent with the University's educational mission and student welfare.

Introduction

A Message from the President

This year's Rocky Vista University Student Handbook and Catalog is published as we celebrate many successes as an institution. This past year, Master of Physician Assistant Studies (PA) program received a 10-year accreditation from ARC-PA, their programmatic accreditor. Additionally, the Montana College of Osteopathic Medicine went from a dream to a reality. The Master of Science in Biomedical Sciences (MSBS) program continues to be the largest feeder program to RVUCOM. Rocky Vista University College of Osteopathic Medicine achieved a record number of students (287) successfully entering residency programs. Finally, we added a new masters' program, the Master of Medical Science on our Montana campus. RVU students and faculty are helping us reach our vision of "Achieving New Heights in Medical Education"

By every measure, RVU faculty and students are delivering on the promises contained in our university Mission Statement: "Rocky Vista University provides quality healthcare education while inspiring students to serve with compassion, integrity, and excellence". RVU students are leaders in national organizations, and in student outcomes: whether it is acceptance into and performance in medical school by our MSBS students, Physician Assistant National Certifying Exam pass rate and job placement by our PA students, or COMLEX pass rate and residency match success, our students are leading the way.

The administration and faculty of RVU remains dedicated to the students and student experience. We know that healthcare education is challenging and at times overwhelming and we are committed to providing the support services that students need.

At Rocky Vista University we embrace core values of integrity, collegiality, compassion, diversity, equity, excellence, inclusivity, service, and innovation. You will find these values every day during your time at RVU. That are meant to be inspirational, aspirational, and living declarations of who we are.

Please take the time to carefully review the material presented in this *RVU Student Handbook and Catalog*, as it includes information every student is expected to be familiar with, in addition to being an excellent resource.

Wishing each of you a successful year ahead.

Sincerely,

Warm regards,
David Forstein, DO, FACOOG
President and CEO
Rocky Vista University

About

Mission, Vision Statement and Core Values

Mission

Rocky Vista University provides quality healthcare education while inspiring students to serve with compassion, integrity and excellence.

Vision Statement

Achieving New Heights in Medical Education.

Core Values

Collegiality

Mutual respect, collaboration, and the open exchange of ideas advance mutual goals and facilitate individual growth.

Compassion

The willingness to be engaged with the needs of others.

Diversity

The recognition, reflection, and representation of individual differences within a community including, but not limited to culture, race, age, ethnicity or national origin, color, sex, gender, gender identity, sexual orientation, religious beliefs, spiritual practices, political beliefs, mental and physical ability, socioeconomic status, individual life experiences, or other ideologies.

Equity

The implementation of unbiased policies and practices to ensure everyone has access to opportunities along with needs-based distribution of resources to obtain positive outcomes so that all individuals and groups may attain their full potential and no one is deprived regardless of identity, abilities, background, or socially determined circumstances.

Excellence

The commitment to exceed expectations in education.

Inclusivity

The dynamic process of creating a welcoming environment that increases awareness, knowledge, and empathetic understanding to enable individuals with diverse backgrounds, abilities, insights, and experiences to interact in an open, fair, respectful, equitable, and collaborative fashion.

Innovation

Delivering new and creative ways to provide healthcare education while consistently demonstrating compassion, integrity, and excellence.

Integrity

The quality of living a unified life in which one's convictions are well-considered and match one's actions, demonstrating fairness, honesty, sincerity, professionalism, and a consistent commitment to our mission, vision, and values.

Service

Through active service, we support one another and seek to meet the needs of the larger community.

University Administration

PhD, University of California Los Angeles

Accreditations

Institutional Accreditation

Rocky Vista University (RVU) is accredited by the Higher Learning Commission (HLC).

HLC accredits degree-granting post-secondary educational institutions in the United States. HLC is an institutional accreditor, accrediting the institution as a whole. At its meeting on May 1, 2018, the Institutional Actions Council (IAC) of the Higher Learning Commission voted to continue the accreditation of Rocky Vista University with the next comprehensive evaluation to be scheduled for 23-24. HLC is an independent corporation that was founded in 1895 as one of six regional accreditors in the United States. For further information please contact the Higher Learning Commission at 230 South LaSalle Street, Suite 7-500, Chicago, IL 60604; or (800) 621-7440.

State Authorizations

Rocky Vista University has full authorization from the state agencies listed below to operate its campuses in Colorado, Utah, and Montana.

Colorado Department of Higher Education

1560 Broadway, Suite 1600
Denver, CO 80202
303-862-3001

Montana University System

560 N. Park
Helena, MT 59620
406-449-9124

Utah Department of Commerce

160 East 300 South
Salt Lake City, Utah 84114
801-530-6601

Specialized Program & Center Accreditations

Specialized program accreditation agencies accredit specific academic programs within an institution of higher learning. These program accreditations ensure that individuals who successfully complete an RVU degree program are eligible to sit for relevant licensure examinations. Rocky Vista University's programs and centers hold the specialized program accreditations listed below. Completion of

Doctor of Osteopathic Medicine

AMERICAN
OSTEOPATHIC ASSOCIATION

The Doctor of Osteopathic Medicine program offered at RVU's Colorado, Utah, and Montana campuses have been granted Accreditation - Continued status by the Commission on Osteopathic College Accreditation (COCA) of the

American Osteopathic Association (AOA). For further information please contact COCA at 142 E. Ontario St., Chicago, IL 60611; or (800) 621-1773; email: predoc@osteopathic.org

Master of Physician Assistant Studies

*Accreditation Review Commission on Education
for the Physician Assistant, Inc.*

The Accreditation Review Commission on Education for the Physician Assistant, Inc. (ARC-PA) has granted **Accreditation-Continued** status to the **Rocky Vista University Physician Assistant Program** sponsored by **Rocky Vista University**. Accreditation-Continued is an accreditation status granted when a currently accredited program is in compliance with the ARC-PA Standards.

Accreditation remains in effect until the program closes or withdraws from the accreditation process or until accreditation is withdrawn for failure to comply with the Standards. The approximate date for the next validation review of the program by the ARC-PA will be **March 2033**. The review date is contingent upon continued compliance with the Accreditation Standards and ARC-PA policy.

The program's accreditation history can be viewed on the [ARC-PA website here](#).

Rocky Vista University Surgical Simulation Center

RVU has the distinction of being recognized as a [Comprehensive Accredited Education Institute \(AEI\) by the American College of Surgeons](#) and is the only osteopathic medical school to receive this prestigious accreditation. This consortium of high-quality programs around the world sets the standard for excellence and innovation in

simulation-based education. Our designation includes both Colorado and Utah campuses. For further information please click on the link below or contact the ACS at 633 N. Saint Clair Street, Chicago, IL 60611; or (312) 202-5000.

Self-Evaluation

As an institution committed to continuous quality improvement, RVU maintains active processes for assessment of student learning, student course evaluations, operational effectiveness evaluation, graduating student and alumni surveys, and engages actively with executive advisory councils comprised of external stakeholders in Colorado, Utah, and Montana.

Institution Ownership

RVU is owned by RVU Holdings, Inc., an indirect subsidiary of Medforth Global Healthcare Education Group, LP and Bear Holdings, LP.

Facilities

Colorado

Rocky Vista University is located in the City of Parker, Colorado, just 20 minutes from downtown Denver. Our Parker campus encompasses a state-of-the-art facility spanning 153,000 square feet. Our campus features three large auditoriums, a fully equipped simulation lab, a comprehensive medical library, a self-serve cafeteria, an anatomy lab, an OPP lab, and a primary care health clinic. The health clinic is available to both students and the community, providing essential services and hands-on training opportunities to our students.

Utah

The Utah campus is located in Southern Utah in a city named Ivins, Utah, overlooking the majestic Red Rock Mountains. The city of Ivins is in the southwest corner of the state, just outside of St. George. The two-story, 104,000 square foot building was designed to complement the natural scenery of the area. The facility includes two 200-seat lecture halls, three seminar rooms, 36 small-group study rooms, clinical skills and OPP lab, a full dissection gross anatomy lab, a multipurpose lab, a simulation center, standardized patient rooms, and a 9,000 square foot library. There is a 23,000 square foot medical office building across the street from the campus which house administrative offices, a mental health facility for students, a fitness center and a medical clinic that provides clinical training opportunities for students (as well as health services to RVU students, faculty and staff and the larger community).

Montana

RVU-MCOM is Montana's first 4-year medical school. Our 138,000 square foot campus sits on 12.8 acres in beautiful Billings, MT. The University strives to recruit and educate individuals committed to becoming highly competent physicians who will assist in meeting the needs of the wide diversity of patients they will encounter during their careers, and who will be equipped to adapt to the demands of a changing health care system.

Key features of the RVU-MCOM campus facility include:

- Modern architecture capitalizing on natural light
- Innovative technology
- Immersion room simulations
- High-fidelity mannequins

- Hand-held ultrasound
- Group-based active learning spaces,
- Expansive anatomy lab for both cadavers and virtual reality

Emphasis on physical and mental wellbeing flows throughout the campus and includes a yoga studio and full fitness center. A full-time mental health counselor is located on site for students to readily access mental health services. Indoor and outdoor spaces are designed to build community by giving students places to gather.

University Policies

Note: Individual program policies may differ from University policies. Please review policies listed under the specific programs.

Anatomy Laboratory Expectation for Participants

Cadaveric specimens that are used in Anatomy Labs are obtained from individuals who recognized the importance of human dissection in the training of future healthcare professionals. The donor bodies must always be treated with respect. Students are expected to follow all policies in the RVU Gross Anatomy Laboratory Policies and Procedures document. Students who break confidentiality of donor identity, disrespect donors, who purposefully destroy tissues in a manner inconsistent with the dissector, or who fail to maintain their donor by using wetting solution and maintenance procedures appropriately will lose their Gross Anatomy Laboratory privileges and may be referred to the Associate/Assistant Dean of Student Affairs for review and possible disciplinary action as indicated. If allowed to continue in the curriculum, these students may be required to complete the remainder of Gross Anatomy Laboratory coursework for the academic year using alternative but equivalent learning and assessment materials.

Colorado Campus

Rocky Vista does not currently operate its own body donation program. Those individuals interested in donating their bodies for the medical education of young doctors can donate through the [State Anatomical Board of Colorado](#).

State Anatomical Board

Phone: (8 am–4 pm): [303-724-2410](tel:303-724-2410)

[Website](#)

Montana Campus

Rocky Vista does not currently operate its own body donation program. Those individuals interested in donating their bodies for the medical education of young doctors can donate through the [State Anatomical Board of Colorado](#).

State Anatomical Board

Phone: (8 am–4 pm): [303-724-2410](tel:303-724-2410)

Utah Campus

Rocky Vista does not currently operate its own body donation program. Those individuals interested in donating their bodies for the medical education of young doctors on our campus can donate through the [University of Utah's Body Donor Program](#) and request that your donation is sent to our campus.

For questions about body donation through the University of Utah please call, email, or write to:

Kerry Peterson

Body Donor Program

520 Wakara Way, SLC, Utah 84112

Phone: (8 am–4 pm): 801-581-6728

Phone: (after hours, weekends, & holidays): 801-581-2121

Email: bodydonor@lists.utah.edu

[Website](#)

Attendance Records

Attendance records are kept by and are the responsibility of the individual Course Directors.

CLERY Act

Rocky Vista University shares many of the same interests and concerns as other colleges and communities, including a concern about crime. The University has been fortunate not to have experienced a significant number of crimes, but one should not be misled into thinking the campus is crime-free. There is always the possibility of a criminal act occurring against a member of the RVU community despite the best efforts of the Safety and Security Department and the administrative staff. A truly safe campus can only be achieved through the shared responsibility of all members of the RVU community.

The University is committed to maintaining a safe environment to support a healthy, learning-centered campus. This commitment includes making necessary physical improvements that promote safety and well-being; the revision and updating of policies, procedures, and rules; and an obligation to hold accountable those who choose to commit crimes or violate rules and regulations.

Every student, faculty, staff member, and visitor has an individual responsibility to be aware of their personal safety, to properly utilize college resources, to make positive choices, and to use common sense. Crimes, violations, hate crimes, suspicious persons or activity, and safety issues should be reported upon discovery through the appropriate channels as described in this Handbook. Please take the time to familiarize yourself with the emergency procedures and the important information on the website. Updates, timely warnings, and important information regarding safety on campus will be communicated by emails, fliers, TV monitors, and other presentations.

For more information, view the [RVU Annual Security Report](#).

To obtain a copy of the Daily Crime Log, please visit the Security Office on any of the campuses.

Disabilities and Academic Accommodations

Disabilities and Academic Accommodations

Rocky Vista University recognizes disability as an integral part of diversity and is committed to creating an inclusive and equitable educational environment for students with disabilities. Students are required to meet the technical standards set forth by the college/program in which they are enrolled, with or without reasonable accommodations. RVU complies with federal and state law prohibiting discrimination against any applicant or enrolled student on the basis of race, color, religion, sexual preference, age, disability, or other protected status. In accordance with its obligations under the Americans with Disabilities Act of 1990 and Section 5.04 of the Rehabilitation Act of 1973, RVU does not discriminate against qualified individuals with disabilities in admission or in access to programs and activities.

Students who may qualify for accommodations include those who have received accommodations previously or who have been diagnosed with a condition impacting one or more major life activities (such as caring for oneself, performing manual tasks, learning, walking, seeing, hearing, breathing, and working, etc.). Although students with temporary illness or injury are not considered disabled by law, every reasonable effort to accommodate their needs will be exercised. If you feel you meet these criteria or would like to discuss your eligibility for accommodations, you are encouraged to complete our registration [form](#).

Requests for accommodations and services are evaluated on an individual, case-by-case basis and are dependent on a student's functional limitations within a given environment. Through an interactive dialog facilitated by Disability Services, all relevant factors, including the impact of the disability on the student's access to a course or a program, supporting clinical or diagnostic documentation, and the relevant learning outcomes of the given program, will be considered. Requests for accommodations that would result in an alteration of the fundamental nature or learning outcome of a course or a program are not reasonable and will not be approved.

Clinical documentation or other diagnostic information submitted to Disability Services is kept confidential and is released to a third party only with the student's written permission or as required by law. General information about a student's disability and accommodation request/s, however, may be shared with other RVU officials or, in limited circumstances, with third parties who have a legitimate educational need to know. The student's disabilities file is maintained by the RVU Disability Officer and is held separately from the student's official academic record.

Students requesting disability-related accommodations must follow the process outlined below.

Accommodations Request Process

Step 1: Complete the [Initial Accommodation Request Form](#)

It is the student's responsibility to initiate the process with Disability Services as soon as possible after committing to attend RVU, or after diagnosis, to ensure timely approval and implementation of approved accommodations. While requests may be submitted at any point throughout the year, students should consider that the interactive process, including documentation review and eligibility notification, typically requires two (2) weeks. Incomplete documentation may delay the review process.

Step 2: [Schedule an Appointment](#) with Disability Services

After submitting the Initial Accommodation Request Form, students must schedule a Welcome Meeting with [Disability Services](#).

Meetings can be held virtually for students on all three campuses or in-person for students on the Utah campus.

Disability Services' priority is initiating the interactive process with students; therefore, students should not delay submitting a request due to a lack of documentation concerns. The Disability Officer will discuss [acceptable types of documentation](#) during the Welcome Meeting, and can answer specific documentation-related questions at that time.

Step 3: Welcome Meeting

The Welcome Meeting is the beginning of an interactive process in which the Disability Officer will talk with students about disability-related barriers they may be experiencing, any history of accommodations they may have, as well as possible accommodations that may be reasonable and appropriate in the various RVU learning environments within the program. Students will also have the opportunity to ask questions, provide information and otherwise engage with the Disability Officer to understand how accommodations work within a medical education setting and what to expect relative to next steps in the process of establishing eligibility.

Step 4: Documentation Review and Notification of Eligibility Determination

Upon receipt of the Initial Contact Form-Request for Accommodations and other supporting documentation, the student's eligibility for accommodations will be reviewed and the student will receive a Notification of Eligibility Determination. The eligibility notification will specify the accommodations for which the student has been approved, and copies will be sent to the Office of Testing and appropriate RVU officials. Once approved for accommodations, the Testing Center will send out instructions regarding the administration and location of exams with accommodations.

In some cases, a student may be asked to provide additional supporting documentation/information if the submitted documentation is outdated or does not include sufficient relevant information to determine the impact of the disability. Last-minute submission of documentation may result in unavoidable delays in consideration of requested services.

Please note that accommodations granted by the University are not applicable retroactively and will not affect past administrative or academic actions, or past performance evaluations and examinations.

Additionally, students are encouraged to meet with the Disability Officer prior to entering the clinical rotation portion of their program, if applicable, or at any time an adjustment to currently approved accommodations may be necessary.

National Board Accommodations

Students seeking accommodations for licensure exams must directly petition the organization administering the exam to seek test accommodations. Please schedule a meeting with the Disability Officer to discuss this process in more detail and learn about additional support RVU may be able to provide.

ADA Accommodation Review Requests and Appeals

Disability Services is committed to ensuring that Rocky Vista University is inclusive and accessible to all students. Several options are available to students who would like to address disability-related concerns, complaints, or issues.

If a student has concerns about the support provided by the [Disability Officer](#), or if they believe that they have been denied reasonable accommodations as requested, we recommend initiating a conversation with the Disability Officer to discuss those concerns. If the matter remains unresolved or if the student disagrees with the determination reached by the Disability Officer, the student may appeal the decision to the [Associate/Assistant Dean of Student Affairs](#) by submitting an [Accessibility Grievance Form](#). The student will be contacted within seven (7) days of submission and will be given an opportunity to share additional details regarding their specific situation and the reason for the appeal request.

If the student believes their complaint is a matter of discrimination, the student has the right to bypass the Associate/Assistant Dean of Student Affairs by submitting an EthicsPoint Complaint [online](#) or by calling (844) 936-2729.

If a satisfactory solution is still not offered, the student may choose to file a complaint with the U.S. Department of Education, [Office of Civil Rights](#).

Diversity Statement

Rocky Vista University is committed to creating a diverse community: one that is inclusive and responsive, and is supportive of each and all of its faculty, students, and staff. The University seeks to promote diversity in its many manifestations. These include but are not limited to race, ethnicity, socioeconomic status, gender, gender identity, sexual orientation, religion, disability, and place of origin.

Rocky Vista University (RVU) recognizes that we live in an increasingly interconnected, globalized world, and that students benefit from learning in educational and social contexts in which there are participants from all manner of backgrounds. The goal is to encourage students to consider diverse experiences and perspectives throughout their lives. All members of the University community share a responsibility for creating, maintaining, and developing a learning environment in which difference is valued, equity is sought, and inclusiveness is practiced.

Diversity and Non-Discrimination Policy

It is RVU's policy to prohibit discrimination or harassment against any person because of race, color, religion, creed, sex, pregnancy, national or ethnic origin, non-disqualifying disability, age, ancestry, marital status, sexual orientation, unfavorable discharge from the military, veteran status, political beliefs or affiliations. Moreover, the University complies with all federal and state nondiscrimination, equal opportunity and affirmative-action laws and regulations, among these the Civil Rights Act; the Americans with Disabilities Act; the Rehabilitation Act of 1973; and Title IX of the Education Amendments of 1972.

RVU's policy on non-discrimination can be found in its Student Handbook, in the [Policy Repository](#) as well as in its Employee Handbook and Faculty Manual. This policy applies not only to employment opportunities, but also to admissions, enrollment, scholarships, loan programs, participation in University activities, access to, participation in and treatment in all University centers, programs and activities.

RVU makes a concerted effort to recruit from diverse backgrounds for both enrollment and employment, not only in terms of ethnicity and gender, but also in terms of life experiences.

Dress Code

RVU Students must follow the following dress code requirements while on campus during business hours (typically 8am – 5 pm).

The RVU dress code reflects the dignity of the health care profession and respect for other students, faculty, administration, staff, and particularly special visitors.

The dress code reflects a general minimum standard for the campus community. Students should refer to the course syllabi and program handbooks for further specific dress requirements (e.g., labs, lectures, rotation sites). The University has the right to require specific dress for specific occasions (e.g., special guests on campus, “casual Fridays”) and students will be notified of any adjustments. Questions regarding appropriate attire may be directed to the Office of Student Affairs and setting-/program-specific leadership.]

The different learning and teaching environments at RVU may require different dress styles and what is appropriate for one setting may be inappropriate for other settings. (e.g., lab, lectures, lab, recreational activity). Regardless of the setting, all clothing should be neat, clean, and respectful of others. Everyone is expected to be well-groomed and wear clean clothing, free of holes, tears, or other signs of wear beyond normal functionality. Students are allowed to dress the full day for the learning experience that they are engaged in; for example, if they are in lab they may wear lab attire for the entire day. However, lab attire that consists of shorts, sports bra, or bare chest should be covered by appropriate outerwear or clinically-appropriate scrubs while not in lab. Students practicing OMM skills outside of lab, may be permitted to wear lab appropriate clothing while practicing.

Appropriate attire *does not* include clothing with rips, tears or frays; or any extreme style or fashion in dress, footwear, accessories, or fragrances. Inappropriate attire also includes clothing having language or images that can be construed, based on societal norms, to be offensive or contribute to a hostile learning and working environment. Hats and headwear are not permitted other than for religious or cultural purposes.

All students are permitted to wear the clothing of their choice regardless of traditional gender norm conformity. Students may dress in accordance with their gender identity and gender expression, provided that such clothing does not violate other aspects of the university dress code.

Students should be open to feedback regarding their attire from peers, faculty, and staff, as the attire of any student can impact others and the RVU community. Questions or concerns regarding dress or dress-related feedback can be brought to the Assistant/Associate Deans of Student Affairs whose decision will be final in the event of an issue. Generally, students will be expected to self-monitor their own attire. However, egregious or repeated dress violations will be considered unprofessional behavior and may result in a disciplinary sanction. Students may be asked to leave campus to change if they are inappropriately dressed depending on the specific situation and case.

When uncertain, students should default to business casual attire or professional scrubs with a white coat on top. Business casual is generally characterized as: slacks/trousers, jeans, dresses, and skirts with modest lengths; collared shirts, sweaters, and blouses; clothing that covers the chest, back, torso, stomach, and lower extremities from armpit to mid-thigh when the body is standing straight and when bending over or reaching the hands above the head; tops that have shoulder straps; bottoms that fully cover an individual's buttock. Business Casual attire is not required after 5pm, but appropriate clothing is still expected.

Cultural and religious attire is welcomed as long as it is safe and appropriate for the specific learning environment. Students must wear their RVU ID at all times unless outlined differently in course or clinical syllabus.

When on location at clinical training sites, students must adhere to the training site's dress code. Students are required to reach out to each of their training sites one week prior to the beginning of each clerkship rotation to learn the appropriate attire.

Health Insurance Portability and Accountability Act (HIPAA)

The HIPAA Privacy Rule (Public Law 104-191) regulates the use and disbursement of individually identifiable health information and gives individuals the right to determine and restrict access to their health information. It requires that reasonable and appropriate technical, physical, and administrative safeguards be taken with electronic, individually identifiable health information. Specifically, we must ensure the confidentiality, integrity, and availability of all electronic protected health information we create, receive, maintain, or transmit.

All students at Rocky Vista University must complete a training course over the privacy laws that apply to the Health Professions to meet requirements of the Health Insurance Portability and Accountability Act of 1996 (HIPAA). Annual

refresher training is required as well. The HIPAA training is provided online, and information to access training will be provided at orientation. A score of 80% or better on the HIPAA training course is a requirement prior to entering RVU programs.

All RVU students are required to abide by all rules, regulations, and policies of HIPAA. RVU has a zero-tolerance policy for violation of patient privacy, and failure to adhere to the mandates of HIPAA is grounds for immediate dismissal from the program.

Students are further expressly prohibited from taking photographs or video of patients without proper preceptor and patient consent. Any and all photographs or videos properly obtained are to be used for educational purposes only and shall not be distributed in any fashion, including, but not limited to, email, hard copy, or social media. The improper acquisition, use, or dissemination of any patient photos or videos is considered a significant violation of both HIPAA and program policies and may result in immediate dismissal from the program.

Non-Discrimination Statement

It is the policy of Rocky Vista University and all of its affiliated colleges and organizations not to engage in discrimination or harassment against any person because of race, color, religion or creed, sex, gender, gender identity and expression, pregnancy, national or ethnic origin, non-disqualifying disability, age, ancestry, marital status, parental status, genetic information, sexual orientation, veteran status, political beliefs or affiliations, and to act in conformity with all applicable federal and state laws, orders and regulations, including the Civil Rights Act; the Americans with Disabilities Act; the Rehabilitation Act of 1973; and Title IX of the Education Amendments of 1972. This policy on nondiscrimination applies to admissions, enrollment, scholarships, loan programs, participation in University activities, employment, and access to, participation in, and treatment in all University centers, programs, and activities.

Questions, comments, or complaints regarding discrimination or harassment may be directed to the Rocky Vista University Office of Compliance and/or the Title IX Coordinator (if discrimination is based on sex/gender-identity) at: compliance@rvu.edu or by calling 720-874-2481. Another option is to file a complaint through the [RVU EthicsPoint system](#).

Complaints may also be filed with the U.S. Department of Education, [Office for Civil Rights \(here\)](#) or calling their Customer Service Hotline at (800) 421-3481.

Needlestick and Bloodborne Pathogen Exposure

Students will potentially come into contact with, or be exposed to, blood and other infectious bodily fluids, whether by direct contact or respiration. Students are also at risk for clinical-related injuries, such as accidental needlesticks. Immediate attention and care of such exposures and injuries are vital to minimize any potential infection.

Upon matriculation and each year of program enrollment thereafter, all students are required to complete online training for prevention of exposures to infectious and environmental hazards. Additionally, prior to beginning clinical experiences, students are provided a quick-reference guide detailing appropriate procedures to follow in the event of an exposure or needlestick injury. Once a student has experienced an exposure or needlestick, the student shall seek immediate treatment in accordance with current and appropriate medical standards. The student shall immediately notify his/her preceptor and fill out any and all forms required by the clinical sites. Should an exposure incident occur, the student should contact RVU's Department of Human Resources, after following hospital or clinic protocol. Should students incur any costs related to evaluation and treatment of an exposure or needlestick injury, the student should submit all claims to the Human Resources Department for processing with Worker's Compensation.

The full policy on Needlesticks and Exposure Incidents can be found in the [RVU Institutional Repository](#).

OSHA - Biosafety, Universal Precautions, and Bloodborne Pathogens

All students must complete a basic training course in biosafety, as required by the Occupational Safety and Health Administration (OSHA). Because patient contact and/or hands-on learning is a required part of the RVU curriculum, all RVU students must complete OSHA training annually. The avenue chosen for completion of this training is the Collaborative Institutional Training Initiative (CITI) online program.

Instructions for registering and logging onto the CITI website, and specific instructions on which courses are required, are provided annually by the Compliance Office: compliance@rvu.edu

Pregnant and Parenting Students Policy

In accordance with the Pregnant and Parenting Student Civil Rights outlined by the U.S. Department of Education's Office of Civil Rights (OCR), RVU must excuse a student's absence because of pregnancy or childbirth for as long as the student's physician deems the absences medically necessary. In addition, when a student returns to school, the student must be allowed to return to the same academic and extracurricular status as before the medical leave began. Students enrolled in courses, fellowship, or clinical rotation during or after pregnancy may face unique challenges regarding attendance and the ability to be absent from the site. Pregnant and parenting students who are in the midst of courses, clinical rotation or fellowship should work with the Student Affairs Disability Officer to address challenges unique to the students' situation. Students on or entering clinical rotation should also contact their Program Director (PA) or the Associate Dean of Clinical Education (COM), as schedules can be rearranged.

For the full policy and how to make requests for accommodations, please go to the [RVU Policy Repository](#) or contact your campus Associate/Assistant Dean of Student Affairs or the Title IX Coordinator.

Professional Liability and Workers' Compensation Insurance

Students are covered by RVU's professional liability and workers' compensation insurance for all RVU-sponsored curricular and co-curricular activities, including rotations, shadowing, health fairs, medical mission trips, etc. Any student who is injured while on clinical rotation must notify the Associate Dean of Clinical Education for the College of Medicine or the Director of Clinical Education for the PA program and must contact **Human Resources** immediately for direction about workers' compensation. Students are not covered for non-RVU activities.

Reservation of Power

The *RVU Student Handbooks and Catalogs* are reference guides to provide students with important information about policies, procedures, requirements, and services. The Handbook is available online at studenthandbook.rvu.edu. This Handbook is not intended to be a contract nor part of a contractual agreement between the University and the student. Each edition of the *RVU Student Handbook and Catalog* supersedes all previous handbooks. Failure to read the Handbook and to be familiar with the rules, policies, and procedures contained in it does not excuse the student from being required to comply with the stated provisions.

Rocky Vista University reserves the rights to amend, modify, add to, or delete information contained within the *RVU Student Handbook and Catalog* at any time without notice. Such changes may include, but are not limited to, changes in tuition and/or fees, academic requirements, curriculum, policies, and responsibilities of the student.

Please note: at times, specific program policies will be more stringent than University policies. Students are required to follow program policies first. In the event the issue can't be resolved at the program level, it will be addressed at the University level by the Provost, whose decision is final.

Disclaimer

This Handbook may not contain all policies applicable to RVU students. If you are searching for a policy that is not found in this Handbook, please contact the Compliance Office or Student Affairs for assistance or visit the [RVU Policy Repository](#) for a list of policies by category.

Sexual Misconduct and NonDiscrimination Policy

Rocky Vista University (the “University”) is committed to the principles of academic and professional excellence and to fostering a positive learning and working environment for its students and employees. Accordingly, the University does not discriminate on the basis of sex in the administration of or in connection with its educational and admission policies, scholarship and loan programs, or employment practices, and it is required by Title IX of the Educational Amendments of 1972 to not discriminate in such a manner.

It is the intent of the University to provide its employees and students with an environment free of sexual discrimination, sexual harassment, and sexual violence (collectively “sexual misconduct”), and to respond appropriately to reports of sexual misconduct. The civil and respectful treatment of one another is a foundation of our principles, and the University will not tolerate any form of sexual misconduct. Persons found responsible for sexual misconduct are subject to disciplinary measures, up to and including dismissal or termination, consistent with this Sexual Misconduct Policy and Investigation Procedures (“Policy”) and any other applicable disciplinary procedures.

Compliance with this Policy is a term and condition of student enrollment and employment at the University. Questions about this policy or Title IX can be directed to Associate Dean of Students in Montana (406) 901-2708, or to the Title IX coordinator (720) 874-2481.

RVU’s Sexual Misconduct and NonDiscrimination Policy and Procedures document is a working document that invites participation and input from the entire RVU community. Revisions will be made on an ongoing basis that reflect community feedback and participation in Title IX educational and prevention activities.

Sexual Misconduct and NonDiscrimination Reporting, Investigating, and Hearing Procedures

Any individual who believes that an employee or student of the University, including themselves, has been subjected to sexual misconduct is encouraged to immediately follow the applicable reporting and investigation procedures and may also pursue criminal, civil, and/or administrative remedies provided by federal and state law. The University encourages all individuals to report possible sexual misconduct that they suffer or observe, and requires responsible employees of the University to do so.

For a full account of the University’s reporting, investigation, and hearing procedures, please review the information on the RVU website at: <https://www.rvu.edu/about/title-ix/>. Questions about this policy or Title IX can be directed to the Title IX Coordinator at (720) 874-2481 or compliance@rvu.edu

Student Complaints

It is RVU campus policy that all students at all times have the right to lodge a complaint or grievance or appeal that they deem important without fear of retaliation of any sort or any other adverse consequence as a result of doing so.

RVU provides the opportunity for students to resolve conflicts and/or related complaints using two levels, informal or formal, or both. Students may elect the avenue that serves their specific needs most appropriately, although some matters may not be available via the informal process. The recommended general strategy is to first contact the specific individuals or units most directly connected with the issue at hand unless there are good reasons for not doing so, such as issues related to alleged sexual misconduct. The Associate/Assistant Dean of Student Affairs can provide guidance on complaint protocol and potential resolution.

The **informal** resolution process is designed to resolve problems for students having difficulty with other students, staff, or campus procedures short of written complaints, investigation, and disciplinary action. This process may involve mediation or discussion with the respondent and does not involve a written, formal complaint. This process should not be used for complaints involving academic, disability, discrimination, and/or racial or sexual harassment issues.

The **formal** complaint procedure is designed to resolve problems for students who are having difficulty with other students, faculty, staff, or processes **that cannot be resolved through the informal resolution process**, or for students who choose to have an investigation and adjudication in a formal setting. This procedure entails a complaint filing through EthicsPoint online via the web at rvu.ethicspoint.com or by calling 844-936-2729. Complaints may be filed anonymously, but remaining anonymous may impair a resolution if your identity is needed to resolve a complaint.

Please note: If you have a complaint that qualifies under Title IX (Sexual Misconduct), it should be sent to the Title IX Coordinator at: compliance@rvu.edu

Details on the Student Complaints and Grievance Procedures, as well as the complaint form, are available on the website and the student portal (MyVista). Assistance is also available from the Associate/Assistant Dean of Student Affairs.

Student Complaints to Accrediting Bodies

Students may file a complaint with the University's accrediting bodies by contacting the following agencies:

Higher Learning Commission (HLC)

230 S. LaSalle Street; Suite 7-500; Chicago, IL 60604
Phone: (800) 621-7440

Colorado Department of Regulatory Agencies

1560 Broadway, Suite 110, Denver, CO 80202
Phone: (800) 886-7675

Utah Department of Commerce, Division of Consumer Protection

P.O. Box 146704, Salt Lake City, UT 84114
Phone: (801) 530-6601

Commission on Osteopathic College Accreditation of the American Osteopathic Association

142 East Ontario Street, Chicago, IL 60611-2864
Phone: (312) 202-8048
predoc@osteopathic.org

ARC-PA

3325 Paddocks Parkway, Suite 345
Suwanee, Georgia 30024
Phone: 770.476.1224
Fax: 470.253.8271

U.S. Department of Education

Office for Civil Rights

<https://www2.ed.gov/about/offices/list/ocr/index.html>

Student Confidentiality and Conflict of Interest

In compliance with the COCA, HLC, ARC-PA, and DNAP COA relevant accreditation regulations, RVU is committed to ensuring the prevention of potential conflicts of interest for student academic advancement and the protection of student confidentiality in the clinical setting. Students seeking healthcare will not be placed in a position in which they could potentially be treated by any faculty or staff that have authority over their educational pursuits. Authority over a student's educational pursuits at RVU is defined by those RVU personnel who, including but not limited to, determine grades, ongoing status of academic standing, and academic advancement within the Program, College, or University, such as Deans, Program Directors, Department Directors, Course Directors or any other faculty who may have grading authority. Medical providers in any of the aforementioned roles will be precluded from providing medical care for a student unless specifically requested by the student. Neither the principal faculty of the COM, MSBS, DNAP, or PA program, the PA or MSBS program directors, nor the COM, DNAP, or PA program medical

directors will serve as healthcare providers for students. In all cases of emergency, care is provided by another faculty member or medical personnel. Further, RVU students participating in clinical training will not be involved in the medical care of other students, unless expressed permission is individually obtained from the student patient. Patient confidentiality will be guaranteed for all RVU students in all clinical settings.

Tardiness Definition

Tardiness is defined as the appearance of a student without proper excuse after the scheduled time that a class begins. Students who are not in class for 50% or more of the class period will be counted absent.

The Family Educational Rights & Privacy Act (FERPA)

The Family Educational Rights and Privacy Act (FERPA) affords eligible students certain rights with respect to their education records. (An “eligible student” under FERPA is a student who is 18 years of age or older or who attends a postsecondary institution.) The policy in its entirety can be found within the university's [Policy Repository](#).

Title IX Policy

All RVU employees and students are trained about Title IX Sexual Misconduct Laws on an annual basis. Students and employees are made aware of, and updated on, the Federal Title IX Act and RVU's policies throughout each year.

RVU's Title IX Coordinator manages the University's response to complaints of sex-based discrimination, including sexual harassment, stalking, sexual assault, relationship violence, and other forms of sexual misconduct, as well as retaliation.

If you believe you or someone you know has been the victim of sexual misconduct or are aware of sexual misconduct and would like to find out about how the University can help you, contact the Title IX Coordinator at (720) 874-2481 or compliance@rvu.edu.

You may also want to make an appointment to talk with one of RVU's Sexual Assault Advocate and Mental Health counselors. The counselor on the Colorado campus can be reached at (720) 875-2896, the counselor on the Utah campus can be reached at (435) 222-1270, and the counselor on the Montana campus can be reached at (406) 901-2752. Your conversation will remain confidential and will not be shared with the Title IX Coordinator, unless you waive your right to confidentiality.

You may seek the assistance of a trusted faculty member; if you do so, please keep in mind that all University employees (other than medical or counseling professionals) are mandatory reporters and must report all information to the Title IX Coordinator.

For direct access to the current Title IX policy, visit the website at: <https://www.rvu.edu/about/title-ix/>.

Student Financial Services

Tuition Refund Policy

Purpose & Scope

The purpose of this policy is to make clear what circumstances may warrant a tuition refund.

Tuition and applicable fees vary according to the degree program in which the student is enrolled. Please refer to the section for each individual degree program for more information.

Policy Statement

Students will be billed for tuition and fees approximately 30 days prior to the beginning of each semester. Tuition and fees must be paid in full by the first day of class. Late tuition payments or failure to make arrangements to pay tuition will result in the student being removed from class and/or clinical externships.

Students who withdraw (either voluntarily or involuntarily) before the first day of class of a semester for which they have already paid their tuition and fees will receive a 100% refund for that semester, with the exception of any non-refundable deposits, which will be retained by the University. Students who matriculate into the University, begin classes or externships, and withdraw (including leave of absence) within the first 30 calendar days of a semester will be refunded according to the following schedule: 1st week: 90%; 2nd week: 75%; 3rd week: 50%; 4th week: 25%; After 4th week: 0%.

There are occasions when a recommendation and decision for Dismissal or Leave of Absence from a program's Student Assessment or Performance Committee, or from an administrative entity, may occur within the first four weeks of a semester based on professionalism, performance, or other issues that occurred in the previous semester. These students are eligible for a 100% tuition refund for the current semester.

Exceptions to this policy due to extenuating circumstances must be first approved by the Assistant/Associate Dean of Student Affairs on the student's primary campus, via the Tuition Refund Form located on the iNet. If approved, the exception form will be forwarded to the Senior Director of Student Financial Services for review. If approved, the student's Dean or Program Director will review. If approved, the form will be forwarded to the Provost for final review and approval. If seeking an exception to this policy, complete the online "Tuition Refund Form" (located on the iNet), and provide a detailed explanation.

Roles & Responsibilities

VP of Finance	Oversight of this policy
Campus Student Affairs Deans Officers	Works with the student for initial review and possible first level approval/rejection of the tuition exception request.
Deans, Program Directors	Receives approved forms from Student Financial Services and, review and 3rd level approval/rejection of the tuition exception form
Provost	Receives approved forms from the Dean or Program Director and provides, review and final approval/rejection of the tuition exception form.. The decision of the Provost is final and not appealable.

For Iowa Residents Only: The State of Iowa For-profit Tuition Refund Policy can be found at <https://iowacollegeaid.gov/ForProfitRefundPolicy>.*

***For Iowa Residents Only:** The State of Iowa For-profit Tuition Refund Policy can be found at <https://catalog.rvu.edu/iowa-0>

*Updated 1.28.25

Voter Registration

Colorado Voter Registration

RVU is required by the Higher Education Act of 1965 (HEA) to distribute voter registration forms to its students. You will find all the information you need to register to vote or make any changes to your registration information (address, name change, etc.) at the Colorado Secretary of State website.

- Colorado: <https://www.sos.state.co.us/voter/pages/pub/home.xhtml>

Montana Voter Registration

To vote in Montana, you must

- Be registered to vote as required by law
- Be 18 years or older by the next election
- Be a citizen of the United States
- Have lived in Montana for 30 days

For more info, [How to Register to Vote - Montana Secretary of State - Christi Jacobsen \(sosmt.gov\)](https://sosmt.gov)

Utah Voter Registration

RVU is required by the Higher Education Act of 1965 (HEA) to distribute voter registration forms to its students. You will find all the information you need to register to vote or make any changes to your registration information (address, name change, etc.) at the Utah Voter Registration website.

- Utah: <https://secure.utah.gov/voterreg/index.html>

Enhancing Your RVU Learning Experience By Successfully Interacting Across Cultural Differences

The curriculum at RVU is intended to expose students to cross-cultural and intergroup dynamics in the successful treatment of diverse patients or work contexts with people from many backgrounds. And while it is the responsibility of the faculty (not the students) to present material related to student's preparation for delivering services in diverse settings, the diversity present in the student body can also be a great source for acquiring cross-cultural information and learning about different groups.

Learning about your fellow Rocky Vista University (RVU) students who represent different group or social identities can add significantly and positively to your healthcare education experience. RVU is no different than many other educational institutions in that students encounter people from diverse backgrounds, including (but not limited to) race/ethnicity, sexual orientation, gender, gender identity, disability, veteran-status, nationality, religion, age, citizenship, and socio-economic status. Interacting with individuals who represent different cultural/social identity groups can be educationally beneficial, yet also challenging. That is, language, culture, worldviews, perspectives, customs, and traditions can be an asset in creating diverse learning environments and forming positive intercultural relationships, but can also become barriers that prevent students from creating conflict-free and productive learning and workplace climates.

The following are suggestions for enhancing your RVU intergroup learning experience via successfully interacting across cultural differences, easing the process of interacting across student individual and group differences, and maximizing the creation of positive and welcoming learning environments:

1. Go out of your way to interact with as many students as you can, in particular with those who are different than you. RVU presents a tremendous opportunity to accomplish this goal. These interactions and dialogues will expand your knowledge about different individuals, identity groups, cultures, and backgrounds.
2. Communication across diverse groups and individuals is a learned skill that will be helpful in your work as healthcare practitioners. Learning to effectively communicate in culturally diverse environments can be both extremely challenging and rewarding.
3. Attempt to avoid microaggressions and try to use micro-affirmations instead when communicating with individuals. Microaggressions are defined as everyday verbal or behavioral insults directed unintentionally or intentionally against people from diverse backgrounds. Examples of insensitive microaggressions are saying "That's so gay", or "You are so Ghetto". These also include behaviors such as "cat calls" directed at women or mocking Native Americans using the stereotypical "War Whooping". Micro-affirmations, on the other hand are subtle validating, uplifting positive comments or clear acknowledgements about a person's value and success. Examples include saying "Good morning", referring positively to the work of a person, showing genuine interest in someone's culture, or correctly remembering and pronouncing someone's name

Thus, when interacting:

1. Be patient with other students and ask that they be patient with you as you try to learn about each other's backgrounds.
2. In talking to someone who comes from a different background, try to ask questions in a respectful manner and at an appropriate time. Instead of asking, "Why don't all Latinos speak Spanish?" try "I don't know if you can answer a question for me. I'm not assuming that you can, but I was wondering if you could educate me a little bit on one aspect of Latino culture about which I have always been curious: Why do some Latinos speak Spanish and others do not?"
3. No matter how curious you are about someone's physical characteristics or personal appearance, such as hair texture, color of skin, jewelry, or clothing, do not touch any of those personal items or characteristics unless you are given permission.
4. Allow each other to make mistakes as you develop your cross-cultural communication skills. Grant each other "redos" and use mistakes and unintentional insensitivities as learning moments. If you make a mistake, apologize for the error and commit to learning from your mistake in order to avoid the faux pas in the future.
5. If you are the person being asked about your cultural background, be patient with the people who are doing the asking. In many cases, the other person does not know how or what to ask and is simply trying to learn.
6. Keep your assumptions and stereotypes in check. Don't assume. Ask questions. Often, these assumptions are based on damaging stereotypes and can inhibit people from forming trusting, effective, and authentic relationships. Practice using social justice education communication techniques, such as calling-in (i.e., respectfully correcting the person) vs calling-out (i.e., attacking and embarrassing the person), active listening, cognitive empathy (i.e., perspective-taking), non-personalizing of issues, and other techniques that support the learning process during difficult conversations.
7. It is also important to keep intersectionality in mind when interacting with fellow students. From the perspective of intersectionality, we are all both members of ingroups and outgroups, depending on which social identities are being discussed. Thus, the old maxim of "treat others the way you want to be treated" is appropriate when interacting across differences.
8. Do not rely on your fellow students as the single source of all your diversity questions and education. Take responsibility for your own education by reading, researching, and talking to experts in the field.

For additional information on or help and support in practicing the guidelines above, contact the RVU Office for Diversity, Equity, and Inclusion at 720-875-2825

Student Educational Records

Academic Records

The Office of the Registrar is the steward of student academic records. Academic records are permanently stored electronically within the student information system and according to record retention guidelines set forth by AACRAO, AAMC, HLC, COCA, and the US Department of Education. Educational records include but are not limited to, admission application, course registration in attempted and completed courses, grades, academic standing, enrollment and graduation verification requests, name and address changes, diplomas, transcripts, and residency/licensure paperwork.

Administrative Holds

A student who fails to meet obligations to the University may be placed on administrative hold, during which time he/she may not be allowed to register, receive a diploma, or receive a transcript. The student must settle financial accounts with the Office of Student Financial Services and determine with the Registrar which office placed the administrative hold in order to clear the obligation with that respective office.

Background Check and Drug Screen

Upon acceptance of an offer of placement within any program within RVU, all RVU students are required to complete a criminal background check and a drug screen as outlined in their matriculation agreement. Information regarding this process is made available upon acceptance. Failure to comply with this requirement may result in the revocation of acceptance.

Students enrolled in the DO program will be required to complete an additional background check and 10-panel drug screen before they enter their third year and again before they enter their fourth year. PA students are required to submit to a criminal background check and drug screen prior to the start of the clinical rotation year. All students may be subject to additional background checks, drug screens, and security measures per clinical site requirements. In addition, the University reserves the right to require random and for-cause drug screenings at any time during a student's enrollment.

Admitted students charged with an offense prior to matriculation must notify the Director of Admissions and individual Program Directors immediately. Currently enrolled PA students charged with an offense must notify the the Program Director and the Associate/Assistant Dean of Student Affairs. Currently enrolled COM and MSBS students charged with an offense must notify the Associate/Assistant Dean of Student Affairs.

Course Registration

The Office of the Registrar is responsible for managing all course registrations and open periods for enrollment. Students can view their course registrations via the MyVista Student Portal.

Degree Audits

The Degree Audit is an advising tool to assist students in determining their individual progress toward completing degree requirements. While it might include evaluative measures and achievement milestones, it is intended to be a resource but does not serve as a transcript.

Students can obtain information regarding their general program progress and requirements toward graduation, as follows:

- Pre-Clinical Students (OMS I and OMS II): see the campus Director of Pre-Clinical Education
- Clinical Students (OMS III and OMS IV): refer to New Innovations
- MMS, MSBS and PA Students: see faculty advisor of the program

Diplomas

Diplomas are issued to students once it has been determined the student has completed all program degree requirements and the degree has been conferred. The Office of the Registrar issues all diplomas and processes requests for replacement diplomas.

Grades

Grades are available on the student's portal and LMS. Final grades are posted on the student's portal.

Grade Point Average (GPA)

Please refer to the specific degree program's section of this catalog for information related to GPA calculation.

Grade Reports

Students may view final course grades by logging into the MyVista Student Portal. Final grades are posted at the end of each semester.

Grade Change Policy

Grades submitted by faculty and/or course or program directors at the end of a course or semester are final and not subject to change by reason of revision of judgment on the part of these individuals. A new exam or additional work undertaken or completed after the grade report has been recorded or retaking the course will not pose a basis for changing a grade. Faculty members are under no obligation to accept late or additional work - except for accommodations made for pregnant and parenting students or those with disabilities (temporary or permanent) as approved by the Student Affairs Disability Officer.

The grade change process may only be used to correct a grade due to:

- Correction of an error in grading;
- Grade appeal (please see individual program policies for grade appeals processes);
- An “incomplete” previously recorded for the course;
- Remediation of a course.

Students will have five (5) business days following the posting of final course grades, exclusive of institution-recognized holidays or breaks, to appeal a grade.

Grade changes may be submitted by the appropriate faculty member to the Office of the Registrar via the Grade Change Request form, found on the iNet under the Staff/Faculty Forms section. All fields must be completed correctly and the form submitted within thirty (30) business days following the event which necessitates the grade change (error found, appeal decision, resolution of an incomplete, or completion of a remediation). Upon receipt, the Registrar will review the request, consult with the requesting faculty member for any clarifications, as needed, and confirm once the change is made.

This policy is separate from grade appeal policies that are held at the program level. Please refer to the appropriate program handbook for guidance regarding grade appeals.

Health Records and Immunizations

RVU follows the latest requirements set forth by the Centers for Disease Control and the Advisory Committee on Immunization Practice. Therefore, students must satisfy all requirements for immunizations at the time of admission and throughout their tenure, as compliance is required on a continuous basis.

Failure to provide all required documentation may prevent matriculation or, in the case of a matriculated student, lead to dismissal. In addition, non-compliant students will be immediately removed from clinical experience and direct patient care until compliance has been achieved. Students are responsible for the expenses of all tests and must meet the conditions listed below (note that some immunization requirements may vary by clinical sites):

- **Measles (Rubeola), Mumps, and Rubella (MMR):** Serologic proof of immunity by Surface Antibody IgG titers for Measles (Rubeola), Mumps, and Rubella. Quantitative lab report including numerical result values and numerical reference range required. Only quantitative (numerical) results accepted.
- **Hepatitis B:** Serologic proof of immunity by Surface Antibody IgG titers for Hepatitis B. Quantitative lab report including numerical result values and numerical reference range required. Only quantitative (numerical) results accepted.
- **Varicella:** Serologic proof of immunity by Surface Antibody IgG titers for Varicella. Quantitative lab report including numerical result values and numerical reference range required. Only quantitative (numerical) results accepted.
- **Tetanus Diphtheria, Pertussis (Tdap):** Tdap or TD booster required every ten years after initial Tdap on file.
- **Two Separate Tuberculosis Skin Tests (PPD/Mantoux):** Upon entry into the program you must provide one of the following options:
 - Blood Draw: T-Spot or QuantiFERON TB Gold Blood draw that is negative and within 12 months.
 - Skin Tests: TB Two-step (Two TB skin tests within 21 days of each other and no more than 12 months old).
 - If a TB skin test is positive: a chest x-ray must be completed every 2 years.**Annual update required.** If TB is updated prior to the past TB expiring only 1 TB is required. If the TB expires a full two-step or blood draw is required.

Additionally, in order to minimize the risk of an influenza outbreak on campus or in affiliated clinical facilities, all students are encouraged to receive the annual influenza vaccination (except when medically contraindicated) while enrolled at RVU.

Documents related to immunizations and screenings are maintained and monitored through the Office of the Registrar. For information regarding specific Health and Immunization Requirements, please visit the Office of the Registrar's webpage.

Requests for Exemptions

Any student who requests an exemption to any immunization, screening, and titer requirement due to a medical contraindication or religious mandate must contact the University in writing immediately upon acceptance into the program or immediately upon learning of a new medical contraindication. The request for exemption must include the reason(s) for the request and any applicable supporting documentation. If the request is prior to matriculation, PA students should contact the Chair of the PA Admissions Committee and the Director of Admissions. Incoming students of the COM or MSBS Programs should contact the Director of Admissions. If the request is after matriculation, the request should be directed to the Associate/Assistant Dean of Student Affairs or individual Program Directors (MSBS or PA).

If the request for exemption is approved, the student will be permitted to matriculate; however, the student may not be able to participate in all required educational activities, and the student will be required to acknowledge that not all educational activities or clinical sites may be available to them. Clinical sites maintain their own regulations and policies regarding immunizations, screenings, and titers, as well as any potential exemptions; therefore, students are expected to comply with the clinical site requirements. If a student is unable to maintain compliance with site requirements due to medical contraindications or religious reasons, the student is responsible for notifying both the clinical site and the program immediately.

Student Contact Information

Students must notify the Office of the Registrar of any changes in legal name, mailing address, phone number, or emergency contact via the Critical Student Information iNet form (accessible via the MyVista Student Portal). Students must complete this form upon matriculation and the start of each academic term throughout their career with RVU, as part of the process to be included in the roster count for each start of the term, as well as any time information has changed.

For the protection of the student's identity, the safekeeping of confidential records, and in case of emergencies, notification of change of information must be within thirty (30) days of the change. Non-compliance may result in disciplinary action.

Student Enrollment Status Changes

For all changes in status (unless appealing the decision or otherwise directed by the Administration), the student is responsible to work with the Associate/Assistant Dean of Student Affairs to process the change and submit the Change of Status form to the Registrar's Office within five (5) business days of receipt of the letter. Failure to do so may have negative impacts on the student's financial aid, enrollment status, course registrations and/or academic transcripts.

Leave of Absence

A Leave of Absence (LOA) is an intentional separation between the student and the University to enable the student to have the fullest opportunity to remedy whatever circumstances resulted in the leave of absence. An LOA suspends all student activities associated with the University and may be voluntary or non-voluntary directed as described below. A leave of absence may not exceed one year either cumulatively or within a single leave during the student's enrollment, unless this requirement is waived by the Dean (DO program) or Program Director (MSBS and PA programs) and Associate/Assistant Dean of Student Affairs. If the student does not return within the timeframe approved, he/she will automatically be considered to have voluntarily withdrawn. The specific timeframe of the leave of absence is dependent on the ability of the student to return to classes within the curricular framework and to complete the required course work in the time and sequence dictated by the faculty and the curriculum.

Any student who is granted or placed on a leave of absence is responsible for his/her own financial obligations. Therefore, all students taking a leave of absence are required to contact the Office of Student Financial Services to determine their status, as they may not meet the federal requirements for a leave of absence for Title IV financial aid.

Students going on leave will be directed to return at a specific starting point but may not be allowed to return in the middle of a course or semester. While on a leave of absence, students are not eligible to make up incomplete class work, remediate any examinations, or take any portion of any licensing or certification examinations without express permission from the Dean (DO program) or Program Director (MSBS and PA programs) and Associate/Assistant Dean of Student Affairs.

Students on a leave of absence are not allowed to come to campus (unless for specific business related to their return) or participate in university-related activities and course work, such as research, student organizations, or university events. However, some resources can be accessed on a limited basis, including use of Media Site, the MyVista platform, online library services, student RVU email, and student RVU health insurance (provided the insurance was already paid-in-full). Full use of RVU mental health and wellness services will be available for students on LOA for up to six weeks past the student's change-of-status date.

Voluntary Leave of Absence

A voluntary leave of absence is one that is requested by a student to withdraw temporarily from classes for personal, financial, or medical reasons. The request for voluntary leave of absence must be submitted in writing to the Associate/Assistant Dean of Student Affairs. If approved and if the student is in good academic standing, the student may be allowed to re-enter the program at the end of the leave without any need for reapplication, remediation, or reevaluation; however, the student may be required to meet specific requirements in order to be allowed to return.

If a student is granted a leave of absence while current coursework is still in progress, he/she will discontinue further course work. In all such cases, an appropriate designation for each course in progress will be entered on the transcript. In the case of a withdrawal from a course, students will be required to meet the course requirements in entirety before being permitted to progress into the next academic year.

If a leave of absence is granted while the student is not in good standing, is under review for a disciplinary action, or has a disciplinary action imposed on them, then the student may not be reinstated to the University without a review by the program's student performance and/or progression committee. Upon completion of its review, the respective committee shall make a recommendation to the Dean or Program Director. If the student is denied reinstatement, their status will be changed to a withdrawal. If the student is granted reinstatement, special disciplinary action requirements may be imposed as a condition of their reinstatement, where appropriate.

Students granted a leave of absence for a medical reason must have a licensed physician certify in writing that their physical and/or mental health is sufficient to permit them to continue in their education. The physician providing the certification must either be designated by or approved by the Associate/Assistant Dean of Student Affairs or by the appropriate Program Director (MSBS or PA) for the certification to be accepted.

Non-Voluntary Leave of Absence

A non-voluntary leave of absence is a mandatory, involuntary leave of absence imposed by the Dean (DO program) or Program Director (MSBS and PA programs) or Associate/Assistant Dean of Student Affairs that is related to academic matters. Please refer to the Academic Policies section of the corresponding program for further information.

A non-academic, non-voluntary LOA is a mandatory, involuntary leave of absence imposed by the Dean (DO program) or Program Director (MSBS and PA programs) or Associate/Assistant Dean of Student Affairs that is unrelated to academic matters. During the leave, the Dean (DO program) or Program Director (MSBS and PA programs) and Associate/Assistant Dean of Student Affairs will provide the student with the opportunity to rectify or seek rehabilitation/treatment for the problem that precipitated the directed leave.

To be reinstated after a non-academic, non-voluntary leave of absence, the student must be able to demonstrate to the satisfaction of the Dean (DO program) or Program Director (MSBS and PA programs) and Associate/Assistant Dean of Student Affairs that the pre-established requirements have been met and that he/she shows a reasonable likelihood that previous problems will not recur.

Sabbatical

A sabbatical is a one-year leave of absence to allow RVUCOM students to pursue extended full-time training or studies at another institution that will lead toward an additional certificate, degree, or scholarly publication. Students are not required to pay tuition or attend courses through RVUCOM during a sabbatical. Participating in this special program will delay graduation from RVUCOM by one year.

Withdrawal

An involuntary withdrawal/dismissal is a University-initiated process that can occur for both academic (such as multiple course failures) and non-academic reasons (unprofessional conduct, violation of University policies, and/or violation of the Student Code of Conduct). In addition, students who fail to complete any academically related activity for ten (10) consecutive days without notifying the Associate/Assistant Dean of Student Affairs shall be considered withdrawn.

A voluntary withdrawal is a student-initiated resignation under which he/she surrenders all rights and privileges as a student of the University. Students must notify the Associate/Assistant Dean of Student Affairs of their request for a voluntary withdrawal verbally or in writing. To return to the University, students must initiate a new application through the Office of Admissions.

Students who voluntarily withdraw from the University are required to meet with or verbally notify their Dean or Program Director, the Associate/Assistant Dean of Student Affairs, and the Office of Student Financial Services.

Dismissal Policy and Right to Appeal

Dismissal is the permanent termination (involuntary withdrawal) of a student's academic enrollment. The Program Director, Associate/Assistant Deans of Student Affairs, and/or the Dean are responsible for imposing this action. A student who chooses to appeal a dismissal must do so in writing to the Provost within five (5) business days of the date of dismissal. While appealing a dismissal, a student may continue to attend classes and take all examinations pending the results of the appeal. The reasons for which a student may be dismissed from the University include but are not limited to the following:

- Circumstances of an illegal, behavioral, ethical, or academic nature that warrant such action;
- Failure to meet the Academic Standards; and/or
- Determination of factors that would interfere with or prevent the student from practicing and meeting the professional and ethical standards expected of a healthcare professional.

Readmission

If a student is dismissed or withdraws from any program within RVU, they may apply for readmission through each program's individual admissions process. In order to be considered for readmission, the student must provide adequate evidence that the conditions or factors that caused the prior dismissal or withdrawal have changed significantly, so that there is a reasonable expectation that the student can perform satisfactorily if readmitted. If the student is readmitted, their prior academic record will remain part of their overall academic record and will be recorded on the permanent transcript.

Transcripts - Official and Unofficial

Official transcripts are housed in the Office of the Registrar and students may request a copy of their official transcript at any time, free of charge. Official transcripts issued directly to the student will bear the marking Issued to Student at the top of each page.

Rocky Vista University fully complies with the AAMC guidelines for medical school transcripts. This includes an unabridged academic history of the student's enrollment.

Unofficial transcripts are not printed on security paper and are labeled Unofficial. Students can access unofficial transcripts via the MyVista Student Portal at any time during the student's enrollment.

Transfer of Credit

Each degree program has specific requirements for the transfer of credit between another educational institution and the University. Please refer to the section on individual degree programs for more information.

Verification of Enrollment

Students may request their enrollment verification at Rocky Vista University by submitting a request via the [iNet form](#).

Doctor of Osteopathic Medicine (RVUCOM)

Welcome to Rocky Vista University

A Message from the Dean

Welcome to Rocky Vista University College of Osteopathic Medicine (RVUCOM). The following pages describe our unique curriculum and the policies that will guide you on your journey to becoming an Osteopathic physician. I can think of no other profession that is as personally and intellectually rewarding.

Our medical school curriculum at Rocky Vista University will help you prepare for your future as a practicing Osteopathic physician in every way, including working with culturally diverse patients and communities. You will receive both “high tech” and “high touch” training that will lead to a solid foundation in the practice of Osteopathic medicine.

RVUCOM students assimilate the knowledge and skills required to prepare them for any field of medicine they wish to pursue. Our graduates distinguish themselves in the delivery of the highest quality of medical practice.

The faculty and staff of Rocky Vista University College of Osteopathic Medicine are committed to your medical education. We invite you to join us in this journey that will lead you to an exciting, demanding, and ultimately rewarding career of service to others, promoting health, and curing disease throughout the nation and throughout the world.

Heather P. Ferrill DO, MS MEdL

Vice President of Faculty Affairs and Dean of Rocky Vista University College of Osteopathic Medicine

Academic Policies

Academic Standards

Students are expected to attain the knowledge, skills, and attitude requisite to provide safe and competent patient care. To that end, students are expected to maintain satisfactory academic performance in the study of the medical disciplines contained within the medical school's curriculum.

Attendance

Attendance at the following educational experiences is required:

- All quizzes and exams;
- All laboratory sessions (anatomy portions of systems courses, OPP labs, PCM labs, etc.);
- All scheduled clinical experiences (Standardized Patient, OPP One-on-One, etc.);
- Any other sessions designated by the Course Director.

Clinical Education

The clinical experience in OMS III and OMS IV focuses on patient care and interaction. Therefore, one hundred percent attendance is vital to ensure continuity of care.

Clinical Electives

Students are required to complete/upload many documents related to clinical electives. The Office of the Registrar is able to upload certain documents including, but not limited to:

- Official transcript
- Letters of Verification

The Department of Clinical Education can provide the following documents:

- Letters of Recommendation
- Liability insurance documentation

Students should also obtain a professional headshot, such as the white coat photo provided by RVU at the beginning of Year One. These photos are available for download on the MyVista Student Portal.

COMLEX: Comprehensive Osteopathic Medical Licensing Examination

For the full policy, see the Elevate Policy Repository at <https://institutionalrepository.rvu.edu/>

COMLEX Level 1

To advance to OMS III clinical clerkships, students must:

- Successfully complete the preclinical curriculum (OMS I & OMS II years).
- Successfully complete the Preclinical Capstone II Course.
- Achieve a passing score on COMLEX Level 1 by the July score release date.

COMLEX Level 2

Passing COMLEX Level 2 demonstrates that a student has attained the medical knowledge competence necessary to enter a supervised graduate medical education setting.

- Students are strongly encouraged to take COMLEX Level 2 at the end of their OMS III year after successfully completing all core, required, and selective clinical clerkships.
- To participate in the NRMP Match, students must achieve a passing COMLEX Level 2 score before the rank order list deadline to be certified for the NRMP Match.
- Students must successfully complete all coursework, including passing both COMLEX Level 1 and COMLEX Level 2 by May 1st of their OMS IV year to be eligible for on-time degree conferral.

Excused Absences and Make-up

If a student is unable to attend a required academic event (e.g., clerkship day, quiz, exam, lab), the student must seek an Excused Absence approval from the Director of Preclinical Education (DPCE) or the Department of Clinical Education at their respective campus location by completing the Excused Absence Form prior to the required session, except in cases of emergency where proactive communication is not possible. The Excused Absence form is located on the RVU iNet webserver.

Preclinical Education

Examples of situations which may be approved for an excused absence from a required event include significant mental or physical illness, emergency, birth of student's own child, death in the immediate family, or attendance to a single professional conference per academic year for which a student is not presenting their own research. Students who are presenting at professional conferences may be eligible for multiple excused absences in a single academic year. Examples of situations that will not be approved for an excused absence from a required event include, but are not limited to, vacations, graduations, or weddings (with the exception of a student's own wedding). If a student believes that the basis for their request is eligible for consideration under The Americans with Disabilities Act of 1990 (ADA), the student should follow the procedure outlined in the Disabilities and Academic Accommodations section of this handbook.

The Excused Absence Form on the iNet is used for required, core-curricular events only (required lectures, required exams, required quizzes, required labs, etc.). This iNet form is not used for Tracks, Electives, and attendance optional events, such as most lectures, student affairs seminars, etc.

Students seeking an excused absence are required to submit relevant documentation that supports the specific request. Examples of relevant documentation might include, a note from a licensed healthcare provider (may not be from a family member), conference registration, obituary/memorial link, etc. Directors of Preclinical Education can provide additional guidance in regard to appropriate documentation for each situation. Proactive communication regarding a potential absence is required. If a student is unsure if their absence will be excused, they are encouraged to communicate directly with their campus Director of Preclinical Education as quickly as possible. If a student is unable to complete an exam due to the sudden onset of significant illness or emergency, they must notify the Office of Testing and their campus Director of Preclinical Education immediately. Once a student sits for and completes an exam (regularly scheduled or make-up), the exam score is final. If a student is absent from a required event or assessment and does not submit the appropriate Excused Absence Form in advance of the event, or if the request is not approved by the Director of Preclinical Education, the student will receive a grade of zero for that event or assessment, or the unexcused absence penalty as outlined in that particular course's syllabus.

If an absence is appropriately excused, a student will be allowed to make-up the required activity or exam. In order to take an exam at any time other than the originally scheduled time, a student must be approved for an excused absence. Any student who takes a make-up exam is expected to abide by RVU's standards of Academic Integrity. If the student misses a scheduled make-up exam, the student will receive a zero for that exam. A student who does not take a quiz at the scheduled time and is appropriately excused will generally receive a 0/0. However, under certain circumstances, a make-up quiz may be administered. A student who is excused from attending a required lab will not miss any required points for the lab. However, that student should not expect faculty to recreate the lab experience. Therefore, it is critical for students to attend all labs, when possible.

Any student who exceeds five (5) excused absences within an academic year may be required to meet with a Preclinical Education Dean. The meeting will involve a discussion about the support resources available through RVU and partner organizations. Additionally, the impact of absences on the student's medical education, clinical competency, and preparedness for future patient care will be reviewed. Next steps for a plan to move forward, which may include a recommendation that the student go on a Leave of Absence, will be discussed.

Clinical Education

Subject Exams

Clinical Education Subject Exams The subject examination is a key component of the core clinical clerkship course grade and is administered toward the end of the clerkship. Any requests to take an exam at any time other than the originally scheduled time (initial attempt) or any requests to delay a confirmed retake exam attempt, must seek an excused absence request by completing the Clinical Education Excused Absence Request Form in iNet prior to the scheduled start of the exam.

The absence is not excused until approved by the Clerkship Director. If the absence is appropriately excused, a student will be allowed to make up the required exam. If the student is absent from an exam and does not request an excused absence in advance or if the request is not approved by the Clerkship Director, the student will receive a grade of zero for the exam.

If a student believes that the basis for their excused absence request is eligible for consideration for ADA accommodation, the student should follow the procedure outlined in the Disabilities and Academic Accommodations section of this handbook.

Clinical Clerkship Days

The focus of the clinical experience in years 3 and 4 is patient care and interaction. One hundred percent attendance is therefore required to ensure continuity of care is maintained. It is understood that certain situations may arise that will result in an absence from the required daily participation. In such instances, the following policies will be observed:

- Absences for any reason must be approved by both the Preceptor and Assistant Dean of Clinical Education - Resources.
- Preplanned absences - Submit the Clinical Education Excused Absence Request form in iNet for preplanned absences as soon as event dates and details are known.
- Emergency absences - Submit the Clinical Education Excused Absence Request form in iNet the same day as any emergency absence or as soon as possible.

Consequences of Excused and Unexcused Absences

Students with two unexcused clinical absences and/or four or more total clinical absences (excused or unexcused) per semester are required to meet with an appropriate Dean of Clinical Education. If a student is believed to be abusing the absence policy, they may be evaluated for a breach of professionalism. If an agreed-upon make-up activity is not completed, not completed within the agreed-upon timeframe, or not completed with satisfactory quality, the student may receive a grade reduction or a grade of Fail for the clerkship.

Didactics and Simulations

In order to gain knowledge and skills to complete the core clerkship successfully and to show professionalism in your professional identity, consistent attendance and participation in didactic and simulation sessions are essential.

- Attendance of didactics or simulations is required unless approved by the Clerkship Director.
- Requests for absences or partial attendance should be submitted directly to the Clerkship Director via the iNet form before the didactic/simulation session or as soon as possible after the session when prior notification is not practicable. The Clerkship Director may assign make-up assessments for approved absences only.

Grade Point Average

RVU grade point averages (GPA) are based on a 100-point scale. The GPA is calculated by dividing quality points by GPA credit hours (pass/fail coursework is already excluded). The GPA will be a two-digit number with two decimal places and will not be rounded.

Incomplete Coursework

In the preclinical phase, a course grade of "Incomplete" will only be granted when approved by the appropriate Director of Preclinical Education (DPCE). Requests for an Incomplete that are denied by a DPCE may be appealed to the Assistant Dean of Preclinical Curriculum Management who is the final level of appeal. With the exception of the Preclinical Capstone II Course (OM 2071), incomplete grades must be completed by the designated deadline, or they will result in a course failure. Incomplete coursework must be completed before progressing to the next academic year.

In the clinical phase, poor attendance, repeated tardiness, unapproved absence(s), or absences in excess of 3 days may result in a grade of incomplete, and the student may be required to meet with the Assistant Dean of Clinical Education Resources for adjudication.

Quality Points

Quality points are the cumulative points used to calculate the grade point average and class rank. Only preclinical courses with numeric final scores and clinical OMS III clinical clerkships contribute to quality points.

For courses where a numeric score is assigned, the value is used to calculate the quality points. For example, a final grade of 85.2 earned in a 2-credit course will award 170.4 quality points ($85.2 \times 2 = 170.4$).

Class of 2026

Class rank for each student will be reported by quintiles based on accumulated total quality points in the following manner:

1. For OMS I and II, quality points are earned in required courses for which an Honors, Pass, or Fail grade is assigned. This includes all required courses, except for those courses in which only P/F grades are assigned (Medical Ethics, Advanced Medical Ethics, Interprofessional Education I, Interprofessional Education II, and Evidence-Based Medicine).
2. For OMS III, quality points are earned in required core clerkship courses for which an Honors, High Pass, Pass, or Fail grade is assigned.

Cumulative ranking will be reported on the Medical Student Performance Evaluation (MSPE). The MSPE that is made available to ERAS will have the cumulative OMS I, II, and III ranking, with each year contributing 1/3rd to the total rank. All rankings will be reported by quintile, unless required by a military or scholarship program, or for which students have given explicit permission. Students may request their cumulative rank by quintile following completion of the OMS I, OMS II, and OMS III years by submitting an iNet Records Request Form to the Registrar's Office after September 1.

Class of 2027 and subsequent classes Class Rank Policy

Class rank for each student will be reported by quintiles based on accumulated total quality points in the following manner:

1. For OMS I and II, quality points are earned in numerically scored required courses for which an Honors, Pass, or Fail grade is assigned on the transcript. The following courses do not contribute to quality points: Medical Ethics, Interprofessional Education I, Interprofessional Education II, Evidence-Based Medicine, Preclinical Capstone I, and Preclinical Capstone II.
2. For OMS III, quality points are earned in required OMS III clinical clerkship courses for which an Honors, High Pass, Pass, or Fail grade is assigned.

The Medical Student Performance Evaluation (MSPE) that is made available to ERAS will have three rankings: the cumulative OMS I, OMS II, and OMS III ranking, with each year contributing 1/3rd to the total rank; the combined OMS I and OMS II rankings (weighted equally); and the OMS III ranking. Each ranking will be reported by quintile, unless required by a military or scholarship program, or for which students have given explicit permission. Students may request their cumulative rank by quintile following completion of the OMS I, OMS II, and OMS III years by submitting an iNet Records Request Form to the Registrar's Office after September 1.

Academic Grievances Policy (Grade Appeal)

All final course grades will be determined by the Course Director or Clerkship Director. When extraordinary circumstances bring a student to seek an appeal of a final course grade, the student must seek solutions through the following administrative channels, entering at the appropriate level and proceeding in the order stated below. All appeals and decisions must be in writing.

1. Preclinical Course Director(s) or Clinical Clerkship Director;
2. Assistant Dean of Preclinical Curriculum Management (or designee) for OMS I and II or Sr. Assoc Dean of Clinical Education for OMS III and IV (Final level of appeal)

The Grade Appeal process is not permitted to be used as a means to dispute existing policies by which grades are determined. Eligibility to pursue a grade appeal includes:

- Evidence of discrimination in the assignment of the final course grade (allegations of discrimination will be forwarded to the appropriate University office for investigation)
- Evidence of a procedural error in the assignment of the final grade
- Evidence that the Course Director/Clerkship Director acted in an arbitrary or capricious manner

A student seeking to resolve a grading concern through the administrative channels above must initiate formal action in writing no later than 5:00 pm five business days after the course grade has been finalized in the LMS for Preclinical grades or posted on the student transcript for Clinical Clerkship grades. The written appeal must state the basis of the grade appeal from the eligibility criteria listed and the circumstances surrounding the grade dispute, with specificity. A review of the student appeal at each administrative level will be carried out as expediently as possible.

If the student wishes to appeal the first decision level, they may appeal to the second decision level in writing no later than 5:00 pm five business days from receipt of the first decision (excluding weekends and official school holidays).

Remediation of a Course

Procedure

If a preclinical student receives approval to remediate a course failure, they, in conjunction with the Director of Preclinical Education, the Course Director, and the Office of Testing will be required to develop a remediation plan and schedule. Remediation examinations must be proctored by an RVU employee or designee. Preclinical remediations must be completed by July 1 of the current academic year. Course failures can only be remediated once; there are no re-remediations allowed.

OMS III and OMS IV students who fail a clinical clerkship must meet with the Clerkship Director to receive a remediation plan. Failure to remediate will result in a referral to the Senior Associate Dean of Clinical Education (or their designee) for disposition in accordance with this catalog's policy.

Grading

RVUCOM follows AAMC guidelines regarding the transparency of academic records for medical students. Any student who successfully remediates a course failure will have their transcript notated with the Grade Code of 'NX' and a Grade of 'PX' to indicate a successful remediation has taken place. For Quality Point (used in class rank and GPA calculation), a 70.00 multiplied by the course credit hours will be awarded for successfully remediated pre-clinical courses.

For OMS III clinical clerkships, successful completion of all remediation as directed by the Clerkship Director will result in the total course points being reduced to 70% of the original points. For grades of Px - Multiply the total points earned in the course by .70 and then by the credit hours earned. Example: (79 points x .70) x 4 credits = 221.2 quality points for the course.

Remediation examinations for course failures must be successfully completed before a student can advance to the next stage of the curriculum.

In the event a course remediation is failed or not completed, the original course grade shall be recorded on the transcript with the original course Grade Code. Any student who fails remediation will be referred to the Student Performance Committee and may be subject to dismissal. If a student fails a course remediation, re-remediation will not be permitted.

Repeated Courses

Once passed, a course may not be repeated unless the student is repeating the entire year. When repeating a course, both grades will appear on the transcript, with the most recent numerical grade used for grade point average and/or class rank calculation and quintile.

Student Performance Committee

RVUCOM Student Performance Committee (SPC)

General Overview

The Rocky Vista University College of Osteopathic Medicine (RVUCOM) Student Performance Committee (SPC) is an official faculty committee with representation from both campuses appointed by the Dean of the Rocky Vista

University College of Osteopathic Medicine (RVUCOM) charged with maintaining the academic and professionalism standards of RVUCOM throughout the preclinical and clinical years. This committee makes decisions related to students' progression within the academic program. (*See "Purview of the RVUCOM SPC")

Students may be referred to the SPC on the basis of academic performance and/or alleged violations of the RVUCOM Code of Conduct, Honor Code, RVU Policy, and failure to adhere to RVUCOM academic integrity, and professionalism expectations.

SPC Academic and Professionalism Review Meetings

The SPC will convene within ten (10) business days from the date of notification for any meeting purpose. The Directors of Preclinical Education (DPCE), Associate/Assistant Deans of Pre-Clinical or Clinical Education, and/or Associate/ Assistant Deans of Student Affairs (or their designee) notifies the SPC Chair and Vice Chair of a student's violation of academic or professionalism standards as outlined in this document. This meeting will consist of reviewing all pertinent and relevant information related to the professionalism violation or course failures in question that the SPC deems appropriate.

Purview of the RVUCOM SPC

The RVUCOM SPC is tasked with reviewing the academic and professionalism standings of students. This committee makes decisions related to students' progression within the academic program. For all cases reviewed by the SPC (either academics or professionalism – or both), the SPC has the authority to make decisions regarding any and all academic performance and professionalism violations, which can include, but are not limited to:

- Probation with or without conditions, which may include, but are in no way limited to:
 - Academic training and education
 - Professionalism training and education
 - Memorandum of Understanding (MOU)
- Academic and/or professionalism counseling, academic and/or professionalism counseling letters, routine status meetings, Memorandum of Understanding (MOU), and ongoing monitoring
- Suspension
- Involuntary academic Leave of Absence (LOA) with requirement of repeating an academic year (restricted to repeating only **one** academic in the entirety of a student's time at RVUCOM)
- Academic and/or professionalism dismissal from RVUCOM and the institution
- Such other penalty or action that the SPC deems appropriate

To assess the students' overall academic performance, the Dean of RVUCOM will review records made available to the SPC and other documents that may include, but are not limited to:

- Student personal statement to the SPC
- MCAT scores
- Pre-matriculation transcripts
- Most updated and current RVUCOM transcript(s) from all programs
- Other documentation as deemed necessary by the SPC

Decisions for Academic Dismissal

SPC decisions for academic dismissal will be based on, but not limited to, the following reasons:

1. A student who has failed three (3) or more courses in the preclinical curriculum or a single course remediation in any academic year
2. A student who fails a third clinical clerkship in the clinical curriculum in an academic year and/or fails the remediation of a clinical clerkship
3. A student who fails to comply with the agreed upon terms of a Memorandum of Understanding (MOU) with the Dean (when applicable)

4. A student who is unable to complete the COM curriculum within six (6) years
5. The Dean of RVUCOM may dismiss a student who has taken an NBOME Board exam three (3) times without achieving a passing score prior to the allotted time to graduate
6. Other circumstances under the purview of the SPC
 1. Such other penalty or action that the SPC deems appropriate

Students who are dismissed from RVUCOM are **prohibited** from applying to any RVU programs in the future.

Participation / Responsibilities

Student Participation in SPC Meetings

The SPC requires the student to submit a personal statement addressing the concerns brought to the SPC (academics and/or professionalism). This must be submitted to the SPC Chair with a copy to the Administrative Assistant of the SPC no later than three (3) business days before the scheduled SPC meeting.

For all academic SPC reviews, students are not automatically required to attend, however, the SPC, at their discretion, may require a student to appear as they deem necessary. If the SPC Chair or Vice Chair (or their designee) deems it necessary to meet with a student, they will contact that student via email and request their appearance (via Zoom). The SPC Chair or Vice Chair (or their designee) may also contact the student to ask questions on behalf of the SPC members. Students are required to respond to questions or appear if requested and do not have the right to waive their appearance.

For all professionalism SPC reviews, students are required to attend a portion of the SPC meeting to speak to, and answer questions by, the committee members.

Student / Faculty Requirements

Once the student has been given notice that their academic / professionalism records and other necessary documentation will be reviewed by the SPC for any reason (academic or professional), they are not permitted to contact any faculty member(s), except for the Chair and Vice Chair, who sit on the committee regarding matters of their SPC review (members as noted on the notification letter to students). A student may face further disciplinary actions, in the form of a professionalism violation, if it is discovered that they sought advice or counseling from a committee member in advance of their SPC meeting once they have been notified of their SPC review date. If a student has questions regarding their SPC review, they must contact the Chair and/or Vice Chair of the SPC (or their designee).

It is discouraged for RVUCOM Faculty and Staff who are members of the SPC to interact with or write letters of support for any student(s) about whom they are aware that an SPC review is imminent.

Processes & Procedures

Academic Performance & Review by SPC

Academic performance & review by the SPC consists of reviewing, and taking into consideration, all COM pre-matriculation records, current RVUCOM records and documents, and personal statements during their deliberations and outcomes. Other records and documents may be reviewed as deemed necessary by the SPC.

The RVUCOM program is comprised of two (2) years of preclinical education and two (2) years of clinical education; each year of education is broken up into two terms. Every course in the preclinical curriculum is offered once each academic year. Pursuant to the rules set forth below, while a student may be allowed to progress terms within an academic year, no student may progress to the next academic year unless they have successfully met all of the requirements and have passed all courses required for promotion to the next academic year.

- A student can only repeat one (1) academic year once during the entirety of the RVUCOM program
- No student can remediate more than two (2) course failures in any given academic year
- Only one remediation is allowed for any particular course failure; **a student cannot re-remediate any course**

The SPC will review the student's RVU records (all programs) to assess the students' overall academic performance.

After review, if the SPC finds that the student has failed three (3) courses in the academic year, or failed any course remediation during an academic year, the SPC will issue a decision based on their purview.

(*See Purview of the RVUCOM SPC)

SPC Academic Decisions

The SPC will make their decision on the date of the SPC meeting. The SPC has three (3) business days to deliver a decision letter to the Associate / Assistant Deans (decanal officers) of Student Affairs (or their designee). The decanal officers of the department of Student Affairs (or their designee) will have three (3) business days from receipt of the SPC decision letter to deliver the letter to the student.

Students who are dismissed from RVUCOM are prohibited from applying to any RVU programs in the future.

1. Preclinical Students – General Academics Policy

1. A student who fails two or fewer courses in an academic year will be offered an opportunity to remediate up to two course failures in an academic year without being required to repeat the entire academic year. Only one remediation is allowed for any particular course and a student cannot re-remediate any course. Students must work with their campus Director of Preclinical Education (DPCE) to develop a remediation plan and are required to comply with and fully implement such plan. This must be done for the first course failure as well as the second course failure received. Meeting with the DPCE is a pre-requisite for the remediation of any course failure.
2. A student who receives three (3) or more course failures in the same academic year will be required to repeat the entire academic year beginning with the first term of the following academic year or may be dismissed from the university. Other potential student outcomes are outlined under "Purview of the RVUCOM SPC" section. Under such circumstances that a student is required to repeat the academic year, the student will be placed on an academic leave of absence until the commencement of the first term of the new academic year to be repeated.

3. A student who has not repeated a year, nor is in a repeat year, who fails a remediation exam will be required to repeat the entire academic year beginning with the first term of the following academic year or may be dismissed from RVUCOM or the University. Under such circumstances that a student is required to repeat the academic year, the student will be placed on an academic leave of absence until the commencement of the first term of the new academic year to be repeated. Other potential student outcomes are outlined under "Purview of the RVUCOM SPC" section.

1.
 4. Students are expected to make progress towards their degree during each term and must complete their degree within 150% of the published program length (six years). Therefore, repeating an academic year will impact the student's educational timeline and could impede their ability to complete the COM curriculum and all requirements in order to progress to the next academic year. Students are required to work with the office of Student Financial Services to discuss and understand any impact that a repeat year may have on their financial aid.

1.
 5. The SPC will take information into consideration when reviewing the students' records and documents (*See "Purview of the RVUCOM SPC")

2. Clinical Students – General Academic Policy

1. A student who fails one (1) clinical clerkship (course) in an academic year will be offered the opportunity to remediate the failed clinical clerkship (course) without being subject to any additional extensions or repetitions. The student is required to be enrolled in the OSTEONS course and meet with the Course Director and Dean of Clinical Education (or their designee) to develop an academic remediation plan. The student is required to comply with and fully implement such a plan. This meeting and the development of a remediation plan is a prerequisite for the remediation of any course and clinical clerkship failure. Failure to meet with the Course Director and Dean of Clinical Education (or their designee) and develop a plan will prevent the student from remediating the clinical clerkship at issue and the failing grade will be final.
2. A student who fails a second clinical clerkship (course) in the same academic year will be referred to the SPC.
3. A student who fails a third clinical clerkship in an academic year and/or fails the remediation of a clinical clerkship will be referred to the SPC and may be subject to dismissal.

Only one remediation is allowed for any clinical clerkship (course) and a student cannot have a second remediation attempt in any clinical clerkship (course). All students must complete the COM curriculum and all requirements within six (6) years of matriculation

All students must take and pass the required board exams within the prescribed time to graduate. Any student who has taken any single required NBOME board exam three (3) times without achieving a passing score before the allotted time to graduate (the 6 years) will be dismissed without opportunity for appeal.

(* See "Purview of the RVUCOM SPC")

(** See "Decisions for Academic Dismissal")

Decisions for Academic Dismissal

SPC decisions for academic dismissal will be based on, but not limited to, the following reasons:

1. A student who has failed three (3) or more courses in the preclinical curriculum or a single course remediation in any academic year
2. A student who fails a third clinical clerkship in the clinical curriculum in an academic year and/or fails the remediation of a clinical clerkship

3. A student who fails to comply with the agreed upon terms of a Memorandum of Understanding (MOU) with the Dean (when applicable)
4. A student who is unable to complete the COM curriculum within six (6) years
5. The Dean of RVUCOM may dismiss a student who has taken an NBOME Board exam three (3) times without achieving a passing score prior to the allotted time to graduate
6. Other circumstances under the purview of the SPC
 1. Such other penalty or action that the SPC deems appropriate

Students who are dismissed from RVUCOM are prohibited from applying to any RVU programs in the future.

Appeal Processes / Procedures

Following notification of an SPC decision, a student may request a formal academic appeal to the Dean of RVUCOM. The student has five (5) business days (from date of letter delivery) to submit a written narrative explaining the basis for the appeal, which must be accompanied by any and all supporting documentation (see list below) to be considered. The narrative must clearly set forth the basis for their appeal, and may only be brought on the following grounds:

1. An error of fact;
2. Evidence of bias;
3. The sanction imposed is extraordinarily disproportionate to the situation;
4. Errors of process under the Student Handbook involving your rights that materially affected the outcome of this matter;
5. New information and supporting documentation relevant to the situation demonstrating extreme circumstances undermining the decision and a demonstrable history of academic success in the program.

To assess the students' overall academic and/or professionalism performance, the Dean of RVUCOM will review records made available to the SPC as well as other documents that may include, but are not limited to:

- MCAT scores
- Pre-matriculation records and transcripts
- Most updated and current RVUCOM transcript(s) from all programs
- All materials submitted to the SPC meeting
- Any other documentation deemed necessary by the Dean

As a part of the appeal process, a student will be granted a 30-minute meeting with the Dean of RVUCOM (via Zoom) to further discuss the criteria for the appeal. The Dean of RVUCOM, in their sole and absolute discretion, may deny or grant an appeal in whole or in part and/or modify the decision of the SPC.

It is important to note that the appeal decision of the Dean of RVUCOM shall be final and binding and not subject to further appeal throughout the university. If the student chooses to appeal, they are attesting that the decision of the Dean of RVUCOM is final.

The Dean of RVUCOM will notify the student of the appeal decision within ten (10) business days from the date of the students' meeting with the Dean of RVUCOM. While the appeal is pending, the status of the student will not be altered. Throughout the appeal process, students must continue to be enrolled, attend all classes or clinical clerkships (course), and sit for scheduled exams until the appeal decision has been made.

Disciplinary hearings conducted in response to an alleged violation of the Code of Conduct, professionalism expectations, Academic Integrity Policies, and any sanctions applied in these situations, are covered in the relevant sections of the RVUCOM Student Handbook.

Revised 7.22.24

Leave of Absence/Withdrawal

Student Religious Accommodations for Excused Absence Policy

Rocky Vista University (RVU) aims to provide a reasonable accommodation for the [sincerely held](#) religious beliefs of a student if the accommodation would resolve a conflict between the individual's religious beliefs or practices and an educational requirement unless doing so would create an undue burden for the university. RVU will make determinations about religious accommodations and attendance/excused absences on a case-by-case basis considering various factors and based on an individualized assessment in each situation.

RVU strives to make determinations on religious accommodation requests expeditiously and will inform the individual once a determination has [been made](#). If there are questions about an accommodation request, please contact the Vice President for Inclusive Excellence, in the Office for Inclusive Excellence.

Students [are strongly encouraged](#) to [submit](#) all religious accommodation requests for the entire academic year via the iNET form (<https://inet.rvu.edu/home/forms-2/student-religious-accommodation-for-excused-absences-request-form/>) during the first week of the semester. Requests may require up to two weeks to process. Please be aware that failure to [submit](#) requests [in a timely manner](#) may delay the implementation of any approved accommodations.

Students should understand that if accommodation [is granted](#), missing time from clinical rotations/clerkships may require the student to make up work or repeat the experience [at a later time](#), potentially delaying progress in the program and/or graduation.

If examinations or assignment deadlines [are scheduled](#) on the day(s) of a religious observance, any student who provided advance notice [following](#) program policies and procedures will have the opportunity to make up the examination or extend the assignment deadline and will not [be penalized](#) for the absence.

Being absent from class or other educational responsibilities does not excuse students from meeting all expectations set during the missed class(es). Students [are responsible for](#) obtaining the materials and information provided during any class(es) missed.

National Platforms for Student Learning Opportunities

Purpose

The Visiting Students Learning Opportunities (VSLO), Clinician Nexus and other application platforms aspire to build a community of residency programs that use common scheduling and credentialing platforms for students to request residency-based elective rotations during their fourth year.

Access

Students will be granted access to VSLO during the Fall semester of their OMS III year. Students will receive an email invitation from the Office of Clinical Education once AAMC makes available VSLO tokens for distribution. Access instructions to other national platforms will be provided by clinical education when these platforms open for eligible students.

Applications

By utilizing VSLO and other national platforms, students will have access to search and apply for clinical clerkship electives at participating residency programs in disciplines of the student's choosing. Note: VSLO charges and fees per elective application.

Students are required to complete/upload many documents related to elective applications. The Office of the Registrar can upload certain documents, including, but not limited to:

- Official transcript
- Letters of Verification

The Department of Clinical Education can provide the following documents:

- Letters of Recommendation
- Liability insurance documentation
- Letter of Good Standing
- Affiliation Agreements

Students are responsible for completing and uploading the following:

- AAMC Immunization form: 4th Year Clinical Coordinators can facilitate final signature on the document once student has filled in all information
- HIPAA/OSHA certificate
- Background Check
- Drug Screen
- ACLS/BLS card
- Immunization records
- Health Insurance card
- Government-issued identification
- White coat photo
- Copy of preceptor evaluation/assessment

Clinical Career Planning

Clinical Career Planning - Overview

Clinical Career Advisors work in collaboration with OMS III and OMS IV students to explore career opportunities in a data-driven manner to align with their personal and professional goals. The Advisors' purpose is to empower students to make informed decisions about their future by providing comprehensive guidance, personalized support, and expert resources. Advisors offer career advising individually and through various programs, guiding career and residency options, strategic and data-informed specialty advice, timelines, application assistance, elective and audition clerkship planning, and interview preparation. Services are provided throughout the entirety of a student's clinical years, including dedicated Match week support.

Clinical Career Advising

Clinical Career Advising, housed within the Department of Clinical Education, is designed to extend the career and residency planning support that begins in the preclinical years. This service provides students with comprehensive career and residency planning information, advice, timelines, and resources. Career advising is available through individual consultations, various programs, workshops, and specialty interest groups.

Students are encouraged to meet with Clinical Career Advisors multiple times throughout their third and fourth years with meetings tailored to individual student needs. However, every student must meet with a Clinical Career Advisor during the first semester of at least once in their third year to develop a strategy for competitiveness in the Match.

The Clinical Career Advising team assists clinical students in refining specialty career pathways to attain successful residency program matching.

Career Planning Process

Career development is a process that includes four key steps:

1. Understanding Yourself: Identifying personal strengths, preferences, and interests.
2. Exploring Options: Learning about the 160+ medical specialties.
3. Choosing a Specialty: Making informed decisions about the best fit for a fulfilling career.
4. Preparing for Residency: Getting ready for audition clerkships, interviews, and the residency application process.

Electronic Residency Application Service

Overview

ERAS® streamlines the residency application process for applicants, their Designated Dean's Offices, Letter of Recommendation (LOR) authors, and program directors. By providing applicants the ability to build and deliver their application and supporting materials individually or as a package to programs, ERAS provides a centralized, but flexible solution to the residency application and documents distribution process.

Purpose

To provide a centralized online application service for students to use to deliver their application, along with supporting documents, to residency programs.

Token Distribution

Students will be granted access to ERAS at the beginning of their third year of study (OMS III). Students will receive an email invite (token) once the Office of the Registrar has confirmed eligibility. The token is used to confirm student eligibility to register for MyERAS.

Required Documents/Records

Students are required to upload most documents via the MyERAS portal. The Office of the Registrar will upload official transcripts, and the Department of Clinical Education will upload the completed Medical School Performance Evaluation (MSPE).

Letters of Recommendation

Letters of Recommendation must be uploaded via the Letter of Recommendation Portal (LoRP) by the author of the letter. Students will need to complete and provide a Letter Request Form when requesting a Letter of Recommendation. The Letter Request Form will include a Letter ID, which connects the Letter of Recommendation to the student's application in ERAS.

Medical Student Performance Evaluation and Other National Residency Application Platforms

The purpose of the Medical Student Performance Evaluation (MSPE) is not to advocate for the student but to provide an honest and objective summary of the student's personal attributes, experiences, and academic

accomplishments based on verifiable information and summative evaluations. Specifically, the MSPE provides a succinct chronology of a student's entry and process through medical school, which includes the preclinical coursework and clinical clerkship records, and compliance with academic and professional policies.

The MSPE is loaded to ERAS by the Department of Clinical Education and released by the system on the universal date set by ERAS/AAMC. Along with the MSPE, transcripts, and board score reports are released to programs as part of the interview application process. The Department of Clinical Education can provide letters of recommendation.

Other National Residency Application Platforms

There are additional residency application platforms available to military students and for specialty-specific applications independent of ERAS.

- Military students submit Graduate Medical Education applications through the branch-specific Medical Operational Data System, under the guidance of the Director of the Military Program.
- The San Francisco Match provides residency-matching services for ophthalmology and plastic surgery.
- Residency Central Application Service provides a centralized application service for applicants applying to Obstetrics and Gynecology as well as Emergency Medicine programs.
- The Central Application is customizable and specialty-specific, predominantly plastic surgery as a sole application platform, although being piloted for other specialties as well.

Students will need to follow an application platform specific guidance regarding timelines, documents and letters of recommendation. The Office of the Registrar will upload official transcripts, and the Department of Clinical Education will upload the completed Medical School Performance Evaluation (MSPE) in accordance with platform guidelines.

Shadowing

In response to the local, regional, and national environment related to students in the clinical workspace outside of formal curriculum, RVU has implemented a "No Shadowing" rule for all preclinical PA and COM students at both the Colorado and Utah campus locations. PA and COM students are not to directly contact a hospital or physician anywhere in the United States to seek shadowing opportunities. Failure to adhere to this rule will be considered a breach of professional conduct and will be dealt with accordingly.

The Department of Clinical Education has developed a mentoring program for OMSII students to be paired with a physician specializing in their career aspirations, to guide and assist the student in career choice and competitiveness for residency.

Program Policies and Procedures

Course, Faculty, and Core Site Training Evaluations

Each student has a responsibility to provide constructive evaluation for the courses and the instructors. This responsibility may be met in part by participation in course evaluations that are required by the University. Students

will be expected to comply with any specific requirements for completing course and faculty evaluations outlined by their individual Programs. The University expects each student to comply with this responsibility and obligation in a constructive, professional manner so that optimal feedback can be provided. The student's input will help improve the educational effectiveness of the curriculum, as well as assist faculty members by providing them with constructive input.

In compliance with accrediting bodies (HLC, ARC-PA, and COCA), the evaluation process is conducted confidentially for all programs, including all courses, and clinical clerkships/rotations. Evaluative comments are shared with the appropriate faculty and administrators, and the identity of the students and their connected comments is normally kept confidential. However, there are parameters in which the identity of a student in any program may be discovered. In rare cases where a student implicitly or explicitly suggests or threatens harm towards themselves or others or reports an unprofessional, discriminatory, dangerous, or illegal clinical environment the identity of that student and their connected feedback/comments can be revealed.

Comparative Analysis of Clinical Core Sites

RVU COM Clinical Education organizes and analyzes preceptor assessment of student performance of clinical curriculum individually by student, core site, and class year cohort. Aggregate and individual evaluation data is used to determine a comparative breadth and depth of clinical experiences. and The quality of assessments that are done on each student at their core site or location assures comparable training experiences and constructive feedback at all RVU clinical training sites. Part of that assessment process is to ensure students have equal opportunity to participate in care across broad socioeconomic and cultural populations in the Intermountain West. Student feedback in the form of constructive evaluation is critical for core site function in clinical training and assessment in a safe learning environment.

Health and Technical Standards

All candidates must meet health and technical standards to be admitted to, participate in, and graduate from the medical education programs of RVUCOM. Because the DO degree signifies that the holder is a physician prepared for entry into diverse postgraduate training programs, RVUCOM graduates must have the knowledge and skills required to function in a broad variety of clinical situations and must be prepared to provide a wide spectrum of patient care. A candidate for the DO degree must have abilities and skills in the areas described below and meet the standards described as an obligation to patients and society.

Reasonable accommodations will be made as required by law; however, the candidate/student must be able to meet all technical standards with or without reasonable accommodation. Please refer to the section on the Americans with Disabilities Act. The use of a trained intermediary necessarily requires that a candidate's judgment be mediated by someone else's power of selection and observation and is not a permissible accommodation. Enrolled students who are unable to meet these standards may be asked to appear before the Student Performance Committee and may be subject to dismissal.

Immunizations

Students must satisfy all requirements for immunizations at the time of admission and throughout their medical school career. Failure to do so will prevent matriculation or, in the case of an enrolled student, lead to dismissal. For specific information, please see "Health Records/Immunizations" of the Student Educational Records section of this Handbook.

Observation

Candidates must be able to observe demonstrations and experiments in the basic and clinical sciences. This includes but is not limited to the ability to observe a patient accurately at a distance and close at hand. Observation requires the functional use of the sense of vision and somatic sensations.

Communication

Candidates should be able to speak, hear, and observe patients in order to elicit information; describe changes in mood, activity, and posture; and perceive nonverbal communication. A candidate must be able to communicate

effectively and sensitively with patients. Communication (in English) includes not only speech but also reading and writing. A candidate must be able to communicate effectively and sensitively in verbal and written form with all members of the healthcare team.

Sensory/Motor

Candidates should have sufficient motor function to elicit information by palpation, auscultation, percussion, and other diagnostic and therapeutic maneuvers. A candidate should be able to perform basic laboratory tests (urinalysis, CBC, blood glucose testing, etc.), carry out diagnostic procedures (endoscopy, paracentesis, etc.), and read EKGs and X-rays. A candidate should be able to execute motor movements reasonably required to provide general care, osteopathic manipulation, and emergency treatments to patients. Examples of emergency treatment reasonably required of physicians are cardiopulmonary resuscitation, administration of intravenous medication, application of pressure to stop bleeding, opening of obstructed airways, suturing of simple wounds, and performance of simple obstetric maneuvers. Such actions require coordination of both gross and fine muscular movements, equilibrium, and functional use of the senses of touch and vision. Candidates must be able to lift a minimum of 40 pounds and stand for a minimum of one hour.

Conceptual, Integrative, and Quantitative Abilities

Candidates must possess conceptual, integrative, and quantitative abilities, including measurement, calculation, reasoning, analysis, and synthesis. Problem solving, the critical skill demanded of physicians, requires all of these intellectual abilities. In addition, candidates should be able to comprehend three-dimensional relationships and to understand the spatial relationship of structures. Candidates must be able to sit in a classroom and participate in a full eight-hour day. The practice of medicine requires periods of distinct concentration in surgery, trauma, emergency room care, and other patient settings. Candidates must be capable of extended periods of intense concentration and attention.

Behavior and Social Attributes

Candidates must have the emotional health required for full use of the intellectual abilities, the exercise of good judgment, the prompt completion of all responsibilities attendant to the diagnosis and care of patients, and the development of mature, sensitive, and effective relationships with patients. Candidates must be able to tolerate physically and mentally taxing workloads and to function effectively under stress. They must be able to adapt to changing environments, display flexibility, and learn to function in the face of uncertainties inherent in the clinical problems of many patients. Compassion, integrity, concern for others, interpersonal skills, interest, and motivation are all personal qualities that will be assessed during the admission and educational processes.

Intercampus Transfer Policy

Rocky Vista College of Osteopathic Medicine (RVUCOM) understands that situations arise in which an enrolled student believes s/he would be better suited at the alternative campus location. However, only special cases with extenuating circumstances will be approved. Students may begin the process for request by meeting with the Associate or Assistant Dean of Student Affairs at their current campus location.

If it has been determined that space is available at the desired campus location, the application/request will be considered. The requestor must be in good academic standing at the time of transfer unless a compelling case is established and approved by the Dean. Admission application, behavioral and professionalism concerns, and feedback from faculty and staff may also be considered with the request. In these rare cases of approval, students will not be able to transfer back to their original campus location.

Due to the significant difference in curriculum delivery and assessment, intercampus transfers between RVUCOM and Montana College of Osteopathic Medicine (MCOM) are not permitted.

Healthcare Employment During School (Practice of Medicine)

Employment of any kind during medical school is highly discouraged. The demands of medical school are so high as to preclude most employment opportunities at the risk of success in the curriculum. Student doctors are encouraged to contact the Office of Student Financial Services for help with budgeting if needed.

Medical students are prohibited from engaging in any activities (from the time of matriculation to the University until graduation or other termination of student status) that might be construed as the practice of medicine without the proper supervision and direction of designated members of the faculty, whether such activities are engaged in for compensation, done as a volunteer, or otherwise. Any student who is a healthcare worker and wishes to be employed in the health-related field must contact the Office of Student Affairs and forward a request to the Dean. All decisions of approval or disapproval will come from the Dean.

Students who are not in compliance with the requirements above may be requested to appear before the Honor Code Committee and are subject to dismissal from the University.

Osteopathic Principles and Practice and Principles of Clinical Medicine Laboratory Policies

All OPP and PCM courses include didactic presentations, demonstrations, practical laboratory experiences and clinical opportunities. During these activities, students establish their knowledge and ability to recognize and utilize the relationships between structure and function that are integral to osteopathic medicine.

The student must develop the knowledge and skills necessary to integrate osteopathic principles and coordinate the proper osteopathic and clinical techniques to prevent and treat pathology and dysfunction. Concurrently, the students will learn other medical approaches to the treatment of disease and dysfunction in the systems courses. Each course provides education on the principles, philosophy and history of osteopathic medicine, examination and evaluation of the patient, and the proper selection and application of osteopathic treatments and techniques. The OPP and PCM courses require the active participation of all students in the laboratory setting where the student, through the active and tactile examination of others along with reciprocal examination, will learn and demonstrate the ability to evaluate and proficiently treat their future patients.

The training of an osteopathic physician requires the ability to perform tactile examinations and osteopathic manipulative techniques on members of any gender or gender identity. The training of an osteopathic physician also requires that a student experience and understand tactile diagnostic exercise and manipulative treatment. Students are required to participate both as patients and as trainees in the OPP laboratory and PCM laboratory, and examine and be examined by members of the any gender identity or biological sex.

A graduate from RVUCOM has the ability to apply for licensure as a physician in all fifty states. Their license is not restricted by any particular gender identity or sex. Candidates for graduation must demonstrate the ability to practice medicine effectively and empathetically with all patients, irrespective of their gender identity or biological sex.

Safety is of primary concern in RVUCOM lab experiences. Students are expected to communicate immediately and directly with the lab faculty regarding any potential injuries sustained in the lab setting. If a student believes they have an injury limiting their participation in the lab activities for the day, it is their responsibility to make sure their faculty is aware. Please refer to department policies and procedures available in course syllabi.

Regarding AOA COCA Standards & Procedures

Students enrolled at RVU may file a complaint regarding the University's adherence to accreditation standards directly through the University or through the Commission on Osteopathic College Accreditation (COCA).

Registering a complaint at the university level: No anonymous complaints will be processed at the university level. Complaints should be filed in writing with the Associate/Assistant Dean of Student Affairs of the respective campus location. Resolution of the complaint shall be made in writing/electronically to the complainant. The Associate or Assistant Dean of Student Affairs will make an effort to process and adjudicate the complaint on a timely basis,

although processing time may vary depending on the subject matter and complexity of the complaint. A letter of adjudication and resolution will be issued to the complainant. A student who is not satisfied with the adjudication and resolution of the complaint regarding AOA COCA Accrediting Standards and Procedures may appeal to the Dean of RVU in writing within ten days of the letter of adjudication and resolution of the complaint. The decision of the Dean on appeal will be final. RVU and RVUCOM do not tolerate retaliation; no action shall be taken by RVU against a student for filing a complaint.

Registering a complaint at the COCA level: Students may also lodge complaints or grievances related to accreditation standards against RVU directly with the COCA. This can be done by contacting the COCA using the contact information below.

Professionalism

Academic Integrity

The University holds its students to the highest standards of intellectual integrity. Therefore, any attempt by a student to pass any examination by improper means, present work that the student has not performed, aid and abet another student in any dishonest academic act, or have direct knowledge of such without reporting it, will subject the offending student to a meeting before the Student Performance Committee for possible disciplinary action, which may include probation, suspension, or even dismissal from the University.

All students are expected to commit to academic integrity by observing the standards for academic honesty. The following acts violate the academic standards:

- Cheating: intentionally using or attempting to use unauthorized materials, information, or study aids in any academic exercise; copying and/or distributing protected assessment material, including but not limited to written exam questions, quiz questions, and standardized patient case information, through written form, audio recording, or video recording
- Fabrication: intentional and unauthorized falsification or invention of any information or citation in an academic exercise;
- Facilitating academic dishonesty: intentionally helping or attempting to help another to violate any provision of this code;
- Plagiarism: the adoption or reproduction of ideas, words, or statements of another person as one's own without proper acknowledgment;
- Misrepresentation;
- Bribery in an attempt to gain an academic advantage;
- Forging or altering documents or credentials;
- Utilization of position or power by a student for personal benefit or to the detriment of another student, faculty member, or member of the staff;
- Dishonesty in any form, including failure to report a violation of the code of conduct; and
- Behavior that does not meet the standards of the University, its affiliates, and the healthcare professions.

Students are expected to submit tests and assignments that they have completed without aid or assistance from other sources. Students must avoid any impropriety or the appearance of impropriety in taking examinations or completing work in pursuance of their educational goals; failure to do so may subject students to an action by the Student Performance Committee.

Copying and/or distribution of assessment materials, including but not limited to written or practical examination questions, quiz questions, or standardized patient case material, is expressly forbidden.

Appeals Process for Code of Conduct

Students who have been found in violation of the Code of Conduct have the ability to appeal decisions within five business days in writing. Appeals decisions will be made within ten business days of receiving the request.

- If the Associate/Assistant Dean of Student Affairs made the conduct decision of the student, the student can appeal to the Dean or Program Director.
- If the Dean or Program Director made the conduct decision, the student can appeal to the Provost.
- Honor Code Committee conduct decisions are sent as recommendations to the Associate/Assistant Dean of Student Affairs and the Dean or Program Director to make the decision. Students who are appealing this decision should appeal to the Provost or their designee.
- If the Provost (or their designee) made the conduct decision, the student can appeal to the President.

Appeal Considerations

- Requests for appeals must be made in writing to the next level of administrator based on who initially heard your case. The appeal must come in writing within five business days of receipt of your initial decision.
- The appeal must be based on one or more of the following: 1) a significant error in fact that materially impacted the outcome; 2) evidence of demonstrated prejudice by the initial decision maker or the Honor Code Committee that affected the outcome; 3) new material information or evidence that was not available at the time of the consideration of the matter or was not available and could not be made available to the decision maker at the time of their decision; 4) the sanction imposed is extraordinarily disproportionate to the offense committed; and 5) errors of process under the Student Handbook involving your rights that materially affected the outcome of this matter. Any new material or evidence must be submitted with the appeal.
- Once an appeal is decided, the outcome is final. Further appeals are not permitted, even if a decision or sanction is changed on remand.

Prohibition of Retaliation

The University prohibits retaliation against any employee or student who, in good faith, reports, rejects, protests, or complains about a Code of Conduct violation. Retaliation is a violation of University policy. The University will not tolerate discrimination, recrimination, or reprisal against any employee or student who reports or participates under this policy in good faith in a related investigation or hearing.

Complaints of retaliation should be reported to the Associate/Assistant Dean of Student Affairs or the Title IX Coordinator if related to sexual misconduct or Title IX. Such complaints will be investigated and handled in a prompt and equitable manner. Any individuals, including Reporting Parties and alleged Reporting Parties, who are determined to have made knowingly false statements during the course of an investigation, may be subject to discipline, which may include termination or dismissal.

Classroom and Training Site Behavior

The virtual and in-person classroom is a shared learning environment and students in the classroom are required to conduct themselves in a professional manner. Any activities that distract from the learning environment, including but not limited to playing computer games, updating social media, or talking may be considered disruptive activity.

A faculty member, instructor, or proctor may dismiss any student from class who is considered to be disruptive. Any student dismissed from class for disruptive or unprofessional behavior will be reported to the Associate/Assistant Dean of Student Affairs (or the appropriate Program Director in the event the behavior relates to an MSBS or PA student) for appropriate disciplinary action and may be required to appear before the Honor Code Committee or the Student Performance Committee.

Clerkship Training Site Behavior

Students are expected to always adhere to the highest level of professional conduct. Students will always treat all employees of Rocky Vista University and those in clinical training sites with respect and courtesy. Students will demonstrate ethically responsible behavior; act honestly and with integrity to patients, their representatives, faculty/preceptors, and coworkers. Students will preserve confidentiality and not discuss patients publicly or with unauthorized people. No documents with patient-identifying information will leave the clinical setting. Compliance with all institutional regulations, including state and federal HIPAA laws, is expected.

The Preceptor has the authority to dismiss a student from the clerkship for violations of the student's duties and responsibilities as delineated in this manual, a threat to public health or safety, or as deemed appropriate for the continued operation of the clinical site. Any such action will result in evaluation by the Dean of Clinical Education or designee for review and possible disciplinary action. In addition, any problems or concerns affecting students not adequately resolved at the clinical training site should be referred to the appropriate Dean of Clinical Education. Students should read and comply with the Student Supervision Policy in the Clinical Education Manual.

Code of Student Conduct and Academic Responsibility

The Code seeks to promote the highest standard of behavior and academic integrity by setting forth the responsibilities of students as members of the University community. Abiding by the Code ensures a climate wherein all members of the University community can exercise their rights of membership.

The University is a community of scholars in which the ideals of freedom of inquiry, thought, expression, and freedom of the individual are sustained. However, the exercise and preservation of these freedoms and rights require a respect for the rights of all in the community to enjoy them to the same extent. Willful disruption of the educational process, destruction of property, interference with the rights of other members of the University community, and interference with the orderly process of the University as defined by the administration will not be tolerated. Students enrolled in the University assume an obligation to conduct themselves in a professional and ethical manner compatible with the expectations of their peers, administration, and future profession. The University retains the power to maintain order within the University and to exclude those who are disruptive to the educational process or the ethical standards of healthcare professionals.

Any violations of the Code of Student Conduct and Academic Responsibility or University policies and procedures may result in disciplinary action and/or criminal prosecution where applicable. These disciplinary actions may include a variety of administrative actions up to and including dismissal. Admission candidates found to have not met the Code of Student Conduct and Academic Responsibility as outlined may be subject to rescindment of the offer of admission.

The Physician Assistant Program has a program-specific mechanism in place to address conduct violations (refer to "Requirements for Promotion and Graduation" in the Master of Physician Assistant Studies Program Catalog section of this Handbook). However, in the event a PA student has an alleged violation of University policy, the student may be brought before the University Honor Code Committee or Provost, in accordance with University policy.

Conduct Standards

Students will not interfere with the rights, safety, or health of members of the University community, nor interfere with other students' rights and privileges in pursuit of their educational goals. Students are expected to abide by all University, College, and Program rules and regulations, and all local, state, and federal laws and regulations affecting their education and profession.

Failure to abide by rules and regulations at the University, College, local, state, and federal levels may lead to a meeting before the Honor Code Committee or the Student Performance Committee (or the Student Assessment and Promotions Committee for the PA Program) and disciplinary actions up to and including dismissal from the University. Markedly egregious violations of the Code of Conduct by a student, including violent acts, crimes, or behaviors such that there is a perceived real or potential threat to University personnel or property may be referred directly to the Dean or Program Director for investigation and action without Committee involvement.

Violations include but are not limited to:

- Theft, robbery, and related crimes;
- Vandalism or destruction of property;
- Disruptive behavior/disorderly conduct on the campus, at University-affiliated sites or at any University- or club-sponsored events, on- or off-campus;
- Physical or verbal altercation, assault, battery, domestic violence, or other related crimes;
- Possession, transfer, sale, or use of illicit and/or illegal drugs, or in the case of a minor, alcohol;

- Illegal possession of or use of a firearm, fireworks, weapons, explosives, or other dangerous substances or items on campus, at University-affiliated sites or at any University- or club-sponsored event, on- or off-campus;
- Appearance in class or on campus, at University-affiliated sites, or at any University- or club-sponsored events, when the student is impaired due to the use of drugs or alcohol;
- Failure of any student to report another student who has indication of impairment while that student is interacting with patients;
- Any act or conspiracy to commit an act that is harassing, abusive, or discriminatory or that invades an individual's right to privacy, including but not limited to sexual harassment; discrimination and abuse against members of any racial, ethnic, national origin, religious group, or on the basis of sex/gender, sexual orientation, marital status, or cultural group and/or any other protected group or as a result of an individual membership in any protected group;
- Sexual misconduct;
- Stalking;
- Unacceptable use of computing resources as defined by the University;
- Impeding or obstructing a University investigatory, administrative, or judicial proceeding;
- Threats of or actual physical harm to others, or damage or vandalism to property;
- Any activity that may be construed as hazing or engaging in, supporting, promoting, or sponsoring hazing of another student, faculty, or staff member;
- Embezzlement or misuse of University and/or student organizational monies or resources;
- Failure to comply with the directives of a University official;
- Violations of the terms or conditions of a disciplinary sanction imposed by the administration;
- Violation of state or federal law, rule, regulation, or ordinance;
- Violation of HIPAA privacy requirements; and
- Fraud, misrepresentation, forgery, alteration, or falsification of any records, information, data, or identity.

Disciplinary Sanctions

Any violations of the conduct standards may result in a complaint being filed against the student. The Provost, Associate Deans, or Directors of Education at clinical sites may, at their discretion, immediately suspend a student pending a hearing on the charges. Violations are subject to disciplinary action, up to and including, suspension or dismissal from the University. Students found in violation of the codes of student conduct and/or University policies and procedures may have one or more sanctions as described below. The list does not exclude other actions that may be directed by the Provost.

Students may be asked to participate in a Conduct Investigation as the respondent or possible witnesses. Students who are asked to participate should keep all related matters and conversations confidential throughout the investigation. Violation of confidentiality is a breach of the student code of conduct and may result in disciplinary action.

Reprimand

A reprimand is an oral or written notification to the student that continuation of wrongful conduct may result in more severe disciplinary penalties. Whether oral or written, the reprimand will be noted in the student's file. The Student Non-Professional Conduct Report may be used to document violations of behavioral conduct. A reprimand may also include the following sanctions:

- **Verbal Warning:** A verbal admonition to the student by a University faculty, administration, or staff member that his/her behavior is inappropriate. A verbal warning will be noted in the student's file for a designated period of time and expunged, at the discretion of the Associate/Assistant Dean of Student Affairs, if no further violations occur;
- **Disciplinary Warning:** Formal notice to a student that his/her action and/or behavior have not met University standards. This sanction remains in effect for a designated period of time and may be expunged from the student file at the discretion of the Associate/Assistant Dean of Student Affairs;
- **Restitution:** Payment made for damages or losses to the University directed by an adjudicating body; or
- **Restriction or Revocation of Privileges:** The temporary or permanent loss of privileges, including, but not limited to, the use of a particular University facility, visitation privileges, and parking privileges.

Disciplinary Probation

Disciplinary probation is a period of time during which a student has the opportunity to demonstrate that they can effectively cease behavioral misconduct. Probation can be for any period of time.

While on probation, the student is prohibited from:

- Holding office in any University organization, clubs, or student government;
- Attending international medical mission trips;
- Being elected to any honorary position.

Additionally, students holding leadership office may be removed from their positions.

During probation for disciplinary reasons, the student must show appropriate behavioral, professional, and personal conduct as defined in the conditions of his or her probation. The student may be required to seek professional behavior modification, education, or counseling. Additionally, the student is required to refrain from any further violation of the code and may be required to comply with any other requirements intended to rehabilitate the student.

If, while on probation, the student violates the terms of his or her probation, actions may be taken up to and including dismissal from the University.

Suspension

Suspension bars a student from attending school for a defined period of time with revocation of all other privileges or activities, including the privilege of entering the campus for a specified period of time. Suspension is included in the calculation of the college's established time limit for completing all graduation requirements.

In clinical years, suspension can be imposed for the remainder of the current clerkship and/or future additional clerkships. Readmission will not be entertained until the suspension period is completed and is subject to approval of the Dean or Provost. The student is barred from the campus and University-affiliated sites without specific approval during the time of the suspension.

Other Appropriate Actions

Disciplinary action not specifically outlined above, but approved through the Dean or the Associate/Assistant Dean of Student Affairs or their designee.

Dress Code

RVU Students must follow the following dress code requirements while on campus during business hours (typically 8am – 5 pm).

The RVU dress code reflects the dignity of the health care profession and respect for other students, faculty, administration, staff, and particularly special visitors.

The dress code reflects a general minimum standard for the campus community. Students should refer to the course syllabi and program handbooks for further specific dress requirements (e.g., labs, lectures, rotation sites). The University has the right to require specific dress for specific occasions (e.g., special guests on campus, "casual Fridays") and students will be notified of any adjustments. Questions regarding appropriate attire may be directed to the Office of Student Affairs and setting-/program-specific leadership.]

The different learning and teaching environments at RVU may require different dress styles and what is appropriate for one setting may be inappropriate for other settings. (e.g., lab, lectures, OPP lab, recreational activity). Regardless of the setting, all clothing should be neat, clean, and respectful of others. Everyone is expected to be well-groomed and wear clean clothing, free of holes, tears, or other signs of wear beyond normal functionality. Students are allowed to dress the full day for the learning experience that they are engaged in; for example, if they are in lab they may wear lab attire for the entire day. However, lab attire that consists of shorts, sports bra, or bare chest should be covered by appropriate outerwear or clinically-appropriate scrubs while not in lab. Students practicing OMM skills outside of lab, may be permitted to wear lab appropriate clothing while practicing.

Appropriate attire *does not* include clothing with rips, tears or frays; or any extreme style or fashion in dress, footwear, accessories, or fragrances. Inappropriate attire also includes clothing having language or images that can be construed, based on societal norms, to be offensive or contribute to a hostile learning and working environment. Hats and headwear are not permitted other than for religious or cultural purposes.

All students are permitted to wear the clothing of their choice regardless of traditional gender norm conformity. Students may dress in accordance with their gender identity and gender expression, provided that such clothing does not violate other aspects of the university dress code.

Students should be open to feedback regarding their attire from peers, faculty, and staff, as the attire of any student can impact others and the RVU community. Questions or concerns regarding dress or dress-related feedback can be brought to the Assistant/Associate Deans of Student Affairs whose decision will be final in the event of an issue. Generally, students will be expected to self-monitor their own attire. However, egregious or repeated dress violations will be considered unprofessional behavior and may result in a disciplinary sanction outlined in the Code of Conduct. Students may be asked to leave campus to change if they are inappropriately dressed depending on the specific situation and case.

When uncertain, students should default to business casual attire or professional scrubs with a white coat on top. Business casual is generally characterized as: slacks/trousers, jeans, dresses, and skirts with modest lengths; collared shirts, sweaters, and blouses; clothing that covers the chest, back, torso, stomach, and lower extremities from armpit to mid-thigh when the body is standing straight and when bending over or reaching the hands above the head; tops that have shoulder straps; bottoms that fully cover an individual's buttock. Business Casual attire is not required after 5pm, but appropriate clothing is still expected.

Cultural and religious attire is welcomed as long as it is safe and appropriate for the specific learning environment. Students must wear their RVU ID at all times unless outlined differently in course or clinical syllabus.

When on location at clinical training sites, students must adhere to the training site's dress code. Students are required to reach out to each of their training sites one week prior to the beginning of each clerkship rotation to learn the appropriate attire.

EthicsPoint Complaint Reporting Hotline

EthicsPoint is an anonymous or confidential reporting tool available 24/7/365 for reporting serious violations of law, regulation, code of conduct, or policies which may include compliance issues, discrimination, fraud, waste and abuse, or serious misconduct.

Phone Reporting (844-936-2729): EthicsPoint has a toll-free phone reporting system that is available 24- hours a day, seven days a week, every day of the year. It is available to all RVU students. When a student calls, he/she/they will reach an independent third-party service provider, completely independent of RVU. When the EthicsPoint phoneline is called, a specialist will answer the call and make a detailed summary of the question or concern raised. The caller's voice is never recorded, and the caller has the option to remain anonymous if they wish; however, it may be difficult to resolve an issue if the complainant does not provide their name. All calls are given a special reference number, and the complainant will be encouraged to call back within a specified time to check on the status of their case.

Web Reporting (rvu.ethicspoint.com): The web-based version of EthicsPoint is made available to students who are more comfortable asking questions or raising concerns through the web. When accessing the EthicsPoint website, RVU's network system is left entirely and the case will be recorded on an independent third party's system. And as with the RVU phone line, the complainant can remain anonymous; however, it may be difficult to resolve an issue if the complainant does not provide their name. All reports entered through the EthicsPoint website are also given a reference number, and encouraged to follow up within a specified time to check on the status of their case.

Failure to Report a Violation

Every member of the University community has the duty to file a complaint with the Office of Student Affairs if it is felt a violation of the Honor Code has occurred. Failure to report a violation of the Honor Code or Code of Conduct is itself a violation. All members of the University community have an affirmative duty to participate in the inquiry or investigative process.

Honor Code

RVU students follow this credo: “As a student of Rocky Vista University, I will be ever vigilant in aiding in the general welfare of the community, sustaining its rules and organizations, and will not engage in practices that will in any way bring shame or discredit upon myself, my school, or my profession.”

Honor Code Committee

The Honor Code Committee is composed of student representatives from the DO program (first year, second year, and clinical years), the MSBS program, and the PA program. All student representatives are elected by their respective classmates. The Associate/Assistant Dean of Student Affairs chairs the Honor Code Committee and may ask any student to appear before the Honor Code Committee for cause. For more egregious violations, the student may be required to meet with the Student Performance Committee (SPC).

- The student shall receive adequate notice of the time, place, and subject of the meeting. Such written notice may be in the form of an official University email, U.S. mail, or hand delivery.
- Appearance before the Honor Code Committee is mandatory.
- In cases with alleged egregious actions, as determined at the sole discretion of the Chair, legal representation at the hearing may be allowed. This is not a formal legal hearing; thus, rules of civil procedure and evidence do not apply. Counsel may not proffer statements or questions, although notes to his or her client are permitted. The University reserves the right to have its own legal counsel present.
- The names of all witnesses must be provided to the Associate/Assistant Dean of Student Affairs in advance of the hearing. Any witnesses will be called to speak to the Committee individually. Witnesses may be asked to remain outside the meeting room for later recall. The student will not be present during the questioning of any witnesses. The Chair of the Committee reserves the right to call additional witnesses.
- The student will be given the opportunity to present his or her statements to the Committee and to respond to any questions. The student will only be present during his or her statement unless otherwise approved by the Chair.
- The Dean (DO program) or the respective Program Director (MSBS program or PA program) shall review the Honor Code Committee's recommendations and may either accept, reject, or modify the recommendations. The student shall be notified of the Dean or Program Director's decision by U.S. mail or personal delivery within ten business days.
- Student can appeal based on the process outlined below.

Impaired Student Policy

The safety and welfare of patients demands that all healthcare providers perform at the highest level of cognitive ability. The illegal use or abuse of drugs or alcohol impairs the ability of a healthcare professional to provide optimal care and may impact the student's future ability to be licensed as a healthcare provider, at a state's discretion. Please check applicable state laws. Although the use of marijuana is legal in the states of Colorado and Montana, it is listed as an illegal drug by the U.S. Federal Drug Enforcement Agency. As such, the use of marijuana in any form that has not been prescribed by a physician for medical purposes is a violation of University policy.

All students, as a condition of enrollment at Rocky Vista University, must agree to abide by the University's Impaired Student Policy. Under this policy, students who are identified as suffering from substance abuse or addiction or who exhibit symptoms suggestive of impairment, either on campus or at one of its affiliates, are subject to immediate drug and alcohol screening and may be referred for further evaluation and treatment. Students undergoing further evaluation and treatment as indicated are protected by confidentiality of services. Refusal of a mandatory drug and alcohol screen will be grounds for immediate dismissal by the Dean or the Provost.

Any member of the University community who observes a student with symptoms suggestive of impairment, substance abuse, or addiction must report the matter to the Associate/Assistant Dean of Student Affairs or the Provost immediately.

Policies and Procedures for Alleged Code of Conduct Violations

Any member of the University community may file a written complaint with the Office of Student Affairs.

During the period of time of any disciplinary action, except dismissal, the student may be directed to comply with specific requirements including counseling, auditing one or more courses, medical treatment, preparing scheduled reports, or other requirements intended to rehabilitate the student and/or to ensure that the student is able to continue with his or her education without further monitoring.

Records of dismissal or leave of absence (administrative or voluntary) and the date of each determination shall be placed in the student's permanent records. The Honor Code Committee shall have non-exclusive authority to evaluate all alleged student violations of misconduct, whether academic, professional, or ethical. Exceptions to this authority include, but are not limited to, the following:

- Nothing shall limit the right of the University or a University-affiliated institution to immediately remove a student who poses a threat, has been accused of a violent act or threat, appears impaired, or any act that constitutes a violation of state, local, or federal law. A student who has been removed from the University shall not return until given permission to do so by the Provost;
- Complaints of sexual misconduct or sexual discrimination must be handled by the University's Title IX Coordinator;
- The Provost is authorized to take whatever action is deemed necessary, including removing a matter from the Honor Code Committee's consideration, whenever in the judgment of the Provost such action may prevent harm to the health, safety, and welfare of any individual, to school property, or to the integrity of the educational process;
- The PA Program has its own Student Assessment and Promotions Committee to deal with violations of the Student Academic Integrity and Conduct Code. Please refer to the "Master of Physician Assistant Studies Program Catalog" section of this Handbook for more information about the process.

Preponderance of Evidence in Investigations

As a general policy standard, a Preponderance of Evidence standard will be applied to all University investigations. Under the preponderance standard, the burden of proof is met when the party with the burden convinces the fact-finder that there is a greater than 50% chance that the claim is true.

Privacy for University Communications

There is no expectation of privacy of information stored on or sent through University-owned information services, resources, and communications infrastructure. FERPA regulations are followed in regard to student records.

The University reserves the right to preserve or inspect any information transmitted through or stored in its computers, including e-mail communications and individual login sessions without notice when:

- there is reasonable cause to believe the user has violated or is violating University guidelines or procedures;
- an account appears to be engaged in unusual or excessive activity;
- it is necessary to do so to protect the integrity, security, or functionality of the University's information technology resources or to protect the University from liability; and/or
- it is otherwise permitted or required by policy or law.

The University is not liable for the loss of or misappropriation of any private or personal information that may be stored on University resources.

Statement of Student Rights and Responsibilities

The University upholds the highest standards of academic excellence. Each student has certain rights and responsibilities, including the following:

- Personal and intellectual freedom;
- Respect for the equal rights and dignity of all University community members;
- Dedication to the scholarly and educational purposes of the University;
- Participation in promoting and ensuring the academic quality and credibility of the institution; and
- Responsibility to comply with the legal and ethical standards of the University, the professional organizations and institutions with which it has partnered with the ethical standards of healthcare professions, as well as those of the local authorities, the state and national laws, and applicable rules and regulations.
- As a general policy standard, a Preponderance of Evidence standard will be applied to all University investigations. Under the preponderance standard, the burden of proof is met when the party with the burden convinces the fact-finder that there is a greater than 50% chance that the claim is true.

Student Affairs

Career and Professional Development

The Career and Professional Development team is dedicated to setting RVU students up for success during and after their time at RVU, however, Rocky Vista University does not guarantee employment. The Career and Professional Development team provides resources to guide students in making informed decisions and successfully planning their careers through professional development. The team encourages students to cultivate their professional skills including, but not limited to, resiliency, service, innovation, and collegiality. Information is provided on an individual or group basis, as well as through a variety of programs, workshops, and specialty interest groups. The team provides a variety of services including but not limited to:

- LinkedIn creation,
- Start-to-finish CV or resume support,
- Professional profile planning,
- Specialty exploration,
- Career information,
- Advice on specialty competitiveness
- Networking guidance

Students are encouraged to make an appointment with a team member once per throughout their entire educational career or more as needed to foster dialogue tailored to individual students' needs and goals.

CARE Team

The Campus Advocacy, Response, and Education (CARE) Team is committed to a proactive and collaborative approach in supporting students who encounter challenges affecting their well-being and academic success. By engaging with the campus community, the CARE Team cultivates a culture of care that ensures the availability of appropriate resources and interventions, while prioritizing both individual well-being and community safety. The team is responsible for gathering and analyzing information regarding concerns related to student well-being and safety, aiming to minimize disruptions for both individuals and the University community. Furthermore, the CARE Team develops and recommends targeted, individualized interventions designed to foster a secure environment that promotes learning, personal growth, and professional development. Through ongoing follow-up, the team evaluates the effectiveness of intervention strategies and makes further recommendations as warranted.

Disabilities and Academic Accommodations

Disabilities and Academic Accommodations

Rocky Vista University recognizes disability as an integral part of diversity and is committed to creating an inclusive and equitable educational environment for students with disabilities. Students are required to meet the technical standards set forth by the college/program in which they are enrolled, with or without reasonable accommodations. RVU complies with federal and state law prohibiting discrimination against any applicant or enrolled student on the basis of race, color, religion, sexual preference, age, disability, or other protected status. In accordance with its

obligations under the Americans with Disabilities Act of 1990 and Section 5.04 of the Rehabilitation Act of 1973, RVU does not discriminate against qualified individuals with disabilities in admission or in access to programs and activities.

Students who may qualify for accommodations include those who have received accommodations previously or who have been diagnosed with a condition impacting one or more major life activities (such as caring for oneself, performing manual tasks, learning, walking, seeing, hearing, breathing, and working, etc.). Although students with temporary illness or injury are not considered disabled by law, every reasonable effort to accommodate their needs will be exercised. If you feel you meet these criteria or would like to discuss your eligibility for accommodations, you are encouraged to complete our registration [form](#).

Requests for accommodations and services are evaluated on an individual, case-by-case basis and are dependent on a student's functional limitations within a given environment. Through an interactive dialog facilitated by Disability Services, all relevant factors, including the impact of the disability on the student's access to a course or a program, supporting clinical or diagnostic documentation, and the relevant learning outcomes of the given program, will be considered. Requests for accommodations that would result in an alteration of the fundamental nature or learning outcome of a course or a program are not reasonable and will not be approved.

Clinical documentation or other diagnostic information submitted to Disability Services is kept confidential and is released to a third party only with the student's written permission or as required by law. General information about a student's disability and accommodation request/s, however, may be shared with other RVU officials or, in limited circumstances, with third parties who have a legitimate educational need to know. The student's disabilities file is maintained by the RVU Disability Officer and is held separately from the student's official academic record.

Students requesting disability-related accommodations must follow the process outlined below.

Accommodations Request Process

Step 1: Complete the [Initial Accommodation Request Form](#)

It is the student's responsibility to initiate the process with Disability Services as soon as possible after committing to attend RVU, or after diagnosis, to ensure timely approval and implementation of approved accommodations. While requests may be submitted at any point throughout the year, students should consider that the interactive process, including documentation review and eligibility notification, typically requires two (2) weeks. Incomplete documentation may delay the review process.

Step 2: [Schedule an Appointment](#) with Disability Services

After submitting the Initial Accommodation Request Form, students must schedule a Welcome Meeting with [Disability Services](#).

Meetings can be held virtually for students on all three campuses or in-person for students on the Utah campus.

Disability Services' priority is initiating the interactive process with students; therefore, students should not delay submitting a request due to a lack of documentation concerns. The Disability Officer will discuss [acceptable types of documentation](#) during the Welcome Meeting, and can answer specific documentation-related questions at that time.

Step 3: Welcome Meeting

The Welcome Meeting is the beginning of an interactive process in which the Disability Officer will talk with students about disability-related barriers they may be experiencing, any history of accommodations they may have, as well as possible accommodations that may be reasonable and appropriate in the various RVU learning environments within the program. Students will also have the opportunity to ask questions, provide information and otherwise engage with the Disability Officer to understand how accommodations work within a medical education setting and what to expect relative to next steps in the process of establishing eligibility.

Step 4: Documentation Review and Notification of Eligibility Determination

Upon receipt of the Initial Contact Form-Request for Accommodations and other supporting documentation, the student's eligibility for accommodations will be reviewed and the student will receive a Notification of Eligibility Determination. The eligibility notification will specify the accommodations for which the student has been approved,

and copies will be sent to the Office of Testing and appropriate RVU officials. Once approved for accommodations, the Testing Center will send out instructions regarding the administration and location of exams with accommodations.

In some cases, a student may be asked to provide additional supporting documentation/information if the submitted documentation is outdated or does not include sufficient relevant information to determine the impact of the disability. Last-minute submission of documentation may result in unavoidable delays in consideration of requested services.

Please note that accommodations granted by the University are not applicable retroactively and will not affect past administrative or academic actions, or past performance evaluations and examinations.

Additionally, students are encouraged to meet with the Disability Officer prior to entering the clinical rotation portion of their program, if applicable, or at any time an adjustment to currently approved accommodations may be necessary.

National Board Accommodations

Students seeking accommodations for licensure exams must directly petition the organization administering the exam to seek test accommodations. Please schedule a meeting with the Disability Officer to discuss this process in more detail and learn about additional support RVU may be able to provide.

ADA Accommodation Review Requests and Appeals

Disability Services is committed to ensuring that Rocky Vista University is inclusive and accessible to all students. Several options are available to students who would like to address disability-related concerns, complaints, or issues.

If a student has concerns about the support provided by the [Disability Officer](#), or if they believe that they have been denied reasonable accommodations as requested, we recommend initiating a conversation with the Disability Officer to discuss those concerns. If the matter remains unresolved or if the student disagrees with the determination reached by the Disability Officer, the student may appeal the decision to the [Associate/Assistant Dean of Student Affairs](#) by submitting an [Accessibility Grievance Form](#). The student will be contacted within seven (7) days of submission and will be given an opportunity to share additional details regarding their specific situation and the reason for the appeal request.

If the student believes their complaint is a matter of discrimination, the student has the right to bypass the Associate/Assistant Dean of Student Affairs by submitting an EthicsPoint Complaint [online](#) or by calling (844) 936-2729.

If a satisfactory solution is still not offered, the student may choose to file a complaint with the U.S. Department of Education, [Office of Civil Rights](#).

Educational Support

Educational support is available to all students. Services are provided to all students who may be experiencing academic difficulty and wish to enhance the efficiency and the effectiveness of their study and test-taking strategies. Support is offered through individual consultation tailored to identify potential problem areas and provide strategies and resources which meet each student's specific needs and are integrated with the course curricula.

Individual Consultation

- Confidential, individualized consultation regarding learning styles, time management, test-taking strategies, and academic performance;
- Diagnostic evaluation of study practices and their effectiveness;
- Structured intervention strategies to increase learning productivity and efficiency;
- Individual preparation for courses, clerkships, and licensure examinations;
- Referrals to on- and off-campus professionals;
- Information about resources to enhance learning, and
- Learning disabilities and ADA Accommodations.

Workshops and Group Sessions

- Effective study strategies, test taking, and time management; and
- Strategy and resource preparation strategies for comprehensive examinations (such as COMLEX and USMLE)
- Small and large group sessions available

Tutoring

Tutors are a vital part of RVU and a valuable resource for all students. The tutoring program provides support for students in most courses. Student tutors have a strong level of understanding/ and competence of the course content and are available at no charge. Tutoring sessions are available in one on one, small group, and large group sessions. For questions about the tutoring program or assistance with scheduling, please contact the Office of Student Affairs.

Educational Support Services are free of charge for RVU students. Students may contact the Office of Student Affairs to request educational support services.

Mental Health and Wellness Services

All students have access to a variety of mental health and wellness services, including:

- 24/7 access to a mental health clinician;
- Individual counseling/therapy;
- Couple counseling;
- Group counseling/therapy driven by need and interest;
- Legal consultation;
- Health coaching;
- Financial Coaching;
- Help finding resources such as housing, childcare, and health services; and
- Psychoeducational and mental health outreach programming to support mental health and wellness.

Information about mental health and wellness services is maintained on the RVU website www.rvu.edu/mentalhealth. Some services are provided through a third-party vendor. All services provided by RVU Mental Health and Wellness are available at no cost, and all treatment services are confidential, in accordance with applicable law, and not part of the student's academic record. For concerns outside the scope of practice of RVU Mental Health and Wellness and/or the contracted third-party vendor, individuals can receive a referral to services in the community. When receiving community services or when receiving services from the third-party vendor outside of established session limits, individuals and their personal health insurance are responsible for all fees that are incurred through the utilization of such services.

Colorado Physician Health Program

(303) 860-0122; www.cphp.org
950 S Cherry St, Suite 1222, Denver, CO

The Colorado Physician Health Program (CPHP) is a nonprofit organization, independent of other medical organizations and the government. CPHP provides peer assistance services for licensed physicians and physician assistants of Colorado as well as medical students and physician assistant students in Colorado. CPHP clients have assured confidentiality as required by law or regulation. Peer assistance services aid individuals who have any health problems such as emotional, psychological, or medical problems. For example, CPHP assists its clients with medical and/or psychiatric conditions (e.g. Alzheimer's disease, HIV infection, depression or substance abuse) as well as psychosocial conditions (e.g. family problems or stress related to work or professional liability difficulties). CPHP provides diagnostic evaluation, treatment referral, and treatment monitoring and support services. CPHP believes that early intervention and evaluation offer the best opportunity for a successful outcome and preventing the health condition from needlessly interfering with medical practice.

Office of Research and Scholarly Activity

Rocky Vista University is committed to producing high-quality basic, clinical, and educational research and scholarly works to achieve new heights in medical education and be a thought-leader in healthcare research. As such, the institution supports research and scholarly activities both financially and with support services available through the Office of Research and Scholarly Activity.

In order to achieve this, all students participating in research or scholarly activity agree to follow all policies and procedures outlined by the Office of Research and Scholarly Activity as found in the [RVU Policy Repository](https://www.rvu.edu/academics/office-of-research-and-scholarly-activity/) and linked to the University's website (<https://www.rvu.edu/academics/office-of-research-and-scholarly-activity/>). Additionally, students will be able to find a quick-start guide on the website that will walk them through the steps of starting at research project at RVU.

RVU's Institutional Review Board (IRB) must review and approve all human subjects research. Information about the IRB can be found at: <https://www.rvu.edu/academics/office-of-research-and-scholarly-activity/irb-and-human-subjects-research/>.

Student Services

Administration/Faculty Office Hours

The University administration endorses an open-door policy and encourages students to meet regularly with the administration and faculty. Regular office hours are established by the administration and faculty for student appointments.

The Office of Inclusive Excellence

The Rocky Vista University Office of Inclusive Excellence is a resource for students, staff, and faculty regarding diversity, equity, and inclusion opportunities and challenges in healthcare education across the Colorado, Utah, and Montana campuses.

The Frank Ritchel Ames Memorial Library

The Frank Ritchel Ames Memorial Library fosters information literacy by providing students with access and the skills necessary to use the most current and impactful medical information for the health of their future patients. Students, faculty, residents, and staff—in Colorado, Utah, Montana, or elsewhere—share access to the same digital collection, which contains books, journals, and databases necessary to learn and practice healthcare. All physical library locations provide access to print copies of required and recommended textbooks, as available. Library users can enjoy a warm and collegial space staffed by highly-trained information professionals who play a significant role in the development of future healthcare providers learning to practice medicine with compassion, integrity, and excellence.

IT Support Services

The Office of Information Technology is available to assist students both on- and off-campus with technical issues they may encounter throughout enrollment. The support center, known as IT Support Services, is available Monday through Friday from 6:00 am until 6:00 pm MST.

Students can email support@rvu.edu for assistance.

For general information regarding technology services, students can visit support.rvu.edu.

Student Portal

Students are provided access to the University's Student Portal (MyUniversity) upon depositing with Rocky Vista University. The Student Portal provides students with access to the academic calendar, links to financial information, and Community Groups. Important news and alerts are also communicated through the Student Portal. After Matriculation, quick access to Grades for exams, quizzes, and other course assignments, as well as, final course grades are also available on the Student Portal, via the link to the Learning Management System (MyCourses - Canvas).

Office of Testing

The Office of Testing (OOT) is in charge of preparing, administering, and processing scores for all written exams, quizzes, and rubrics-scored essay assignments, and providing score reports to faculty. The OOT is available to answer student questions about testing, provide technical assistance with testing software, arrange make-up exams and reviews for excused absences, and work with faculty, staff, and administration to ensure the quality and security of evaluation material.

The OOT designs the proctoring and administration of exams to meet the highest standards of academic integrity. With student cooperation, the Office of Testing seeks to provide the most secure, consistent, and low-distraction exam environment possible, modeled after the environment of NBME Board exams.

RVU uses ExamSoft™, a secure item banking and electronic testing software platform, to create and administer all written exams and quizzes. Students are required to own and maintain a laptop that meets the minimum requirements of Exemplify™, the exam taker application of ExamSoft. Those requirements are here: [Exemplify MSRs](#)

Requirements are subject to frequent change, so the OOT recommends that students check them before purchasing or updating a laptop for use at RVU. If a student has a last-minute issue with their personal laptop, the OOT has loaner laptops available to borrow. The OOT asks that students limit use of this option to emergencies and to no more than five times per student, per semester.

Please contact officeoftesting@rvu.edu for the Colorado and Utah campuses, or MTOOT@rvu.edu for the Montana campus, with any questions, testing concerns, or to notify OOT of unexpected absences from testing events.

Detailed exam day instructions, best practices, and testing protocol for each program can be found on the [Office of Testing tab](#) under Students on MyVista.

Print Center

The Print Center streamlines the University's print needs. It reduces outsourcing and incorporates additional services, including business card production, poster printing, lamination, binding, and more. RVU departments and students are able to send their print jobs directly to the Print Center through an online system and can pick them up at their convenience.

The Print Center is located at the Colorado campus on the second floor inside the library and is open Monday through Friday from 8:00 am to 5:00 pm MST. RVU Utah and RVU Montana print jobs are ordered online, processed in Colorado, and then shipped to the appropriate campus for pick up. The Print Center may be contacted through email at printcenter@rvu.edu or by phone at (720) 874-2459.

Writing Center

The Rocky Vista University Writing Center assists writers in the development of effective written communication, assignments, and professional documents, offering guidance from start to finish—from brainstorming and outlining to revising and editing. To schedule an appointment, please complete their form at <https://www.rvu.edu/writing-center/>.

Through audience- and genre-centered instruction, specific feedback, and access to resources, the RVU Writing supports faculty and students alike.

One-on-one and small-group sessions are tailored to support students and build more accomplished writers in any type of written work, including:

- Reflective writing;
- Proposals, reports, and reviews;
- Abstracts and manuscripts;
- Personal statements; and,
- CVs, resumes, and other professional writing documents.

Sessions are designed to help students:

- Understand assignment expectations;
- Generate, organize, and develop ideas;
- Analyze, synthesize, and argue;
- Summarize, paraphrase, and document sources; and,
- Recognize and revise issues with grammar and syntax.

Campus Policies

Campus Safety and Security

The Campus Safety and Security has several ways to ensure that the campus community remains a safe and secure learning environment, including CCTV surveillance cameras, an access-controlled facility, advanced fire control system, RAVE Emergency Notification systems in Colorado and Utah, as well as officer patrols and escorts. The Campus Safety and Security team is committed to providing safety and security services in a professional and consistent manner. RVU strives to provide these services with integrity, timely communication, and problem-solving. The Campus Safety and Security Department serves 24 hours a day, 7 days a week. They provide patrols, escorts, investigations, crime prevention, and many other services. Students, staff, or faculty who witness a crime, accident, emergency, or suspicious person should promptly call the Campus Safety and Security Department at (720) 875-2892 in Colorado or (435) 222-1300 in Utah or 911. The Campus Safety and Security Department should be informed of any 911 calls so assistance can be provided to the local law enforcement or fire personnel.

Students, staff, and faculty will receive emergency notifications, including campus closures and weather delays via SMS text messages and email notifications. In the event a Timely Warning Notice is issued, the campus community will be notified as soon as possible through our RAVE Emergency Notification Systems in the form of SMS text messages, email, audible announcement beacons, and/or bull horn/public address system. Students, staff, and faculty will receive a text message notification of RVU campus closures or emergencies.

CLERY Act

Rocky Vista University shares many of the same interests and concerns as other colleges and communities, including a concern about crime. The University has been fortunate not to have experienced a significant number of crimes, but one should not be misled into thinking the campus is crime-free. There is always the possibility of a criminal act occurring against a member of the RVU community despite the best efforts of the Safety and Security Department and the administrative staff. A truly safe campus can only be achieved through the shared responsibility of all members of the RVU community.

The University is committed to maintaining a safe environment to support a healthy, learning-centered campus. This commitment includes making necessary physical improvements that promote safety and well-being; the revision and updating of policies, procedures, and rules; and an obligation to hold accountable those who choose to commit crimes or violate rules and regulations.

Every student, faculty, staff member, and visitor has an individual responsibility to be aware of their personal safety, to properly utilize college resources, to make positive choices, and to use common sense. Crimes, violations, hate crimes, suspicious persons or activity, and safety issues should be reported upon discovery through the appropriate

channels as described in this Handbook. Please take the time to familiarize yourself with the emergency procedures and the important information on the website. Updates, timely warnings, and important information regarding safety on campus will be communicated by emails, fliers, TV monitors, and other presentations.

For more information, view the [RVU Annual Security Report](#).

To obtain a copy of the Daily Crime Log, please visit the Security Office on any of the campuses.

Firearms, Weapons, and Other Prohibited Items Policy

This policy establishes restrictions regarding the possession, carry, transportation and storage of firearms and weapons and other dangerous items on Rocky Vista University properties or areas of responsibilities. This policy applies to all RVU students, faculty, staff, guests, visitors and contractors.

Policy Statement:

Possession of firearms, ammunition, explosives, fireworks, and/or other dangerous weapons, which may cause fear, alarm, or threat to another person within or upon the grounds, buildings, or other facilities of RVU or at any RVU-sponsored or supervised functions or events is prohibited.

However, if the individual is legally permitted to transport, possess, purchase, receive, transfer, or store the firearm in the state of the RVU location where they are working, studying, or visiting, it is allowable for the firearm(s) to be stored in the individual's private vehicle in the University parking lot. The firearm must be locked securely in the motor vehicle or in a locked container attached to the motor vehicle while the motor vehicle is not occupied; and the firearm is not in plain view from the outside of the motor vehicle. Any employee or student who intends to have a permitted firearm in their vehicle while in the University parking lot must complete a disclosure form, available at the Department of Campus Safety and Security. If the weapon is a loaded handgun, employee or student must provide proof on the form that the employee or student has a concealed carry permit valid in the state of the RVU location where they are working or attending school. In no event may a person store or possess a loaded rifle, shotgun, or muzzle-loading rifle in a vehicle in the University parking lot.

Any person(s) in violation of this policy shall be subject to University disciplinary action and/or criminal charges.

Exception to this policy would be granted to city, state, or federal law enforcement officers on RVU property for official business.

Other Prohibited Weapons or Dangerous Items:

RVU disallows the following items within its facilities due to existing RVU policies, fire safety laws, as well as federal, state, and local laws. Possession of any of the following items may result in seizure and/or destruction of the items by an RVU representative and may result in disciplinary action:

- Rifles, weapons, ammunition and related paraphernalia, BB guns and air guns.
- Narcotics, recreational or illicit drugs and drug-related items.
- Explosive materials.
- Realistic replicas of firearms or other weapons.
- Gasoline, kerosene and other fuels.
- Firecrackers and fireworks.
- Combustible decorations.
- Candles, lanterns, incense, etc. (No open flames).
- Toxic and hazardous chemicals, except cleaning chemicals and approved lab chemicals.
- Unauthorized cooking equipment (i.e., grills, toaster ovens, hot pots, hot plates, fry pans, etc.).
- Immersion heaters.
- Any other items that may affect the safety or security of the University.

Additional Information:

Employees or students who are aware of violations of this policy are required to report such violations to the Department of Campus Safety and Security.

Clinical Rotations:

Students on Clinical Rotations must learn and adhere to the policy of the facility in which they are rotating, as RVU policy does not supersede any outside facility's policies in this regard.

Lost and Found Policy

This policy is intended to ensure that items reported lost or found are properly accounted for and, in the case of items found, returned to their rightful owners, donated, recycled, or disposed of.

The Department of Campus Safety and Security (CSS) Colorado Campus will receive and collect lost and found items and store them in the property room until claimed by the owner or to the end of the school academic year. After the school ends, any unclaimed property will be donated, recycled, or destroyed.

All found Property must be logged into the Lost and Found property book. All items are tagged and stored in the Lost and Found Cabinet. When an item is claimed, a release of property waiver must be completed and signed before any item is returned to the owner. The waiver is to be filed in an appropriate folder, and the ARMS entry must be updated.

Items turned in will be held for 90 days from the date of intake. At the determination of the CSS Manager or designee, all remaining unclaimed items will be purged from the inventory by one of the following methods: donated, recycled, destroyed, or returned to the finder.

Cash money turned in to CSS will be turned over to finance immediately; CSS will not hold money.

Security will not hold the following items: Clothing, notes, notebooks, coffee mugs, thermoses, water bottles, plates, bowls, eating utensils, food, or drinks.

Any items collected as evidence will be given to the CSS Manager or designee, to be stored in a secure location until handed over to law enforcement for further investigation.

Parking Permits

Parking permits are required to park on campus and must be properly displayed. They are issued on an individual basis and may not be transferred. Permits are only valid when obtained through the RVU Security Office and they remain the property of RVU. The owner of a permit is responsible for any/all citations issued to any vehicle displaying their permit. Students are to park in specified areas only.

Personal Safety and Security

Rocky Vista University, together with the clinical site and the student, share the responsibility for ensuring that adequate policies and procedures are in place regarding the safety and security of the students and faculty in all locations where instruction occurs. This includes sites where clinical rotations occur, as well as off-site training locations for University-sponsored events.

Students will be encouraged to become familiar with all safety and security policies in effect at all sites and off-campus events. Finally, all preceptors will be expected to communicate their site-specific policies and safety considerations with students and faculty involved at their location.

RVU as an educational institute falls under the jurisdiction of the [Clergy Act](#). The annual security report can be found by taking the hyperlink.

Student ID Badge Policy

University policy requires all students obtain and carry their RVU Student ID Badge while on campus. It is primarily used for identification, entry into the RVU buildings, for verification of RVU status, and for using University services, such as access to the building. The badge may be obtained at the Security Office on the Colorado campus and Security Front Desk on the Utah campus.

Completion of the Critical Student Information Survey is required to obtain the RVU Student ID Badge. Use of the badge by anyone other than the person to whom it was issued is strictly prohibited. The cardholder is responsible for any and all losses associated with their card. RVU Student ID Badges are the property of RVU and must be returned on request.

It is the responsibility of the University to ensure the safety and security of all its students and employees. All students are expected to wear their RVU ID Badge at all times in a visible location above the waist when in RVU buildings. Current students may request the replacement of ID badges according to the following information.

Campus Safety and Security will replace one (1) issued ID badge at no charge to current employees and students; however, subsequent requests to replace additional ID badges may result in a fee of \$10 each. Replacement for ID badges will be referred to the Safety and Security Department and payment will be made through the Finance Department prior to the creation of a new ID badge.

Marketing and Communications

The RVU Marketing Department provides many services for members of the RVU community:

RVU Branding Guidelines and Logo Files

At Rocky Vista University, maintaining a strong and unified brand identity across all communication channels is a top priority. Our [brand page](#) serves as a comprehensive resource, empowering every member of the RVU community to present a consistent and cohesive brand image in all marketing and communication endeavors.

We encourage you to frequent this hub to stay informed about the latest updates to our brand guidelines.

Marketing Approvals

For all marketing materials, both internal and external, please adhere to the University's brand guidelines. Requests can be submitted to the marketing department at RVU via email at marketing@rvu.edu. Please provide a detailed description of the proposed material, along with relevant design files and mock-ups. Kindly allow 5 business days for feedback or approval.

All designs should incorporate an approved university logo. The RVU logo should be prominently displayed, unaltered, and unobstructed. Logo size should be appropriate and maintain its integrity across different formats and platforms. Designs should utilize the designated fonts and colors specified in the RVU branding guidelines.

Press Releases

If students, faculty, or staff would like to have a press release created and distributed about an event or accomplishment (either individually or departmentally), please submit your request to marketing@rvu.edu.

Peak to Peak Post

The Peak to Peak Post serves as a cross-campus, RVU-wide internal newsletter, delivering crucial updates, upcoming events, and Inclusive Excellence resources, all while highlighting and honoring the achievements of our faculty, staff, and administrators across all campuses and programs.

The editors of Peak to Peak welcome input and active engagement from the community to shape each unique issue. To contribute or be featured in future newsletters, please fill out our communication [request form](#).

Event Marketing

When students or clubs are holding events, they can contact Marketing for assistance in planning, materials (such as fliers), and/or social media and regular media marketing. Requests can be made to marketing@rvu.edu.

Apparel and Products

Marketing approval is required for any apparel or merchandise that students or employees would like to produce that uses the RVU logo, wordmark, mascot, or any other reference to the University or its programs. Approval requests can be made to marketing@rvu.edu. RVU branded merchandise can be purchased from Shop.RVU.edu.

Website

The Marketing Department is responsible for maintaining and updating the RVU website. If a student or employee has suggestions or revisions for the website, they should contact marketing@rvu.edu.

Email Signature Policy

RVU utilizes a standardized email signature for students and employees, in order to maintain consistent branding for the University, to exhibit professionalism, and to identify spam emails. The Marketing Department is responsible for ensuring the appropriate branding and representation of the University. Examples and instructions for setting it up are provided during orientation.

Social Media Policy

The Rocky Vista University (RVU) social media policy is established to ensure that all social media activity representing the University is conducted in a manner that upholds RVU's mission, vision, and core values. This policy applies to all members of the RVU Community, including employees, students, alumni, and designated external representatives, who manage or contribute to social media accounts on behalf of the University. The policy is necessary to guide the professional and responsible use of social media, protect the University's brand and reputation, and ensure compliance with applicable laws and University policies.

For the purpose of this policy, "social media" refers to, but is not limited to, blogs (web-based journals) and microblogs (e.g., Tumblr); collaborative websites (e.g., Wikipedia, etc.); message boards; social networking sites (e.g., Facebook, Instagram, GroupMe, LinkedIn, X, Snapchat, Pinterest, WhatsApp); social networking features (University Portal); podcasts (multimedia distributed over the internet); video sharing (e.g., YouTube, TikTok); and photo sharing (e.g., Instagram, Facebook).

Policy

RVU authorizes the creation and use of approved University social media accounts, provided such use is professional (i.e., HIPAA and FERPA compliant), protects the reputation and brand of the University, is owned and operated under RVU or approved by RVU Marketing, and complies with RVU policies, applicable laws, and regulations.

RVU encourages respectful and constructive interactions among users and with the institution on its social media channels and within comment threads of RVU content. Users are reminded that their posts and comments on RVU's platforms are publicly visible. As such, they should be appropriate for all audiences and reflective of RVU's values.

RVU is not responsible for content posted by visitors on its social media channels. RVU reserves the right to screen and remove any content deemed inappropriate, including but not limited to offensive language; political endorsements; content that harasses, abuses, threatens, or otherwise violates the rights of others; advertisements, promotions, or other commercial content that sells products or services; any outside links; or spam. RVU also reserves the right to block and/or remove users and any associated content who violate this policy.

Requirements

The Marketing Department maintains, manages, and owns the official Rocky Vista University social media accounts. RVU is the exclusive owner of all RVU trademarks, branded merchandise, and related logos and imagery. Employees and students may not use the RVU logo without an approval ID from the Marketing Department. Visual identity standards must be properly adhered to by following RVU visual identity guidelines at <https://www.rvu.edu/brand/>. The RVU Marketing Department will oversee and monitor all RVU owned and approved accounts to ensure the following maintenance and updates are maintained.

Account Maintenance and Updates

1. Regular Updates: Official RVU social media accounts will be updated regularly, outlined during the initial setup of the account. Accounts or pages that remain inactive for three months or more may be deactivated or deleted.
2. Administrator Changes: If there is a change in account or page administrators, the new administrator must notify the Marketing Department within one month. Failure to do so may result in account deactivation.
3. Content Responsibility: The account or page administrator is responsible for ensuring that posts accurately reflect RVU's core values. Social media communications must comply with all applicable University policies.

4. **User Access:** The account or page administrators are responsible for ensuring the proper review, maintenance, and establishment of user roles and responsibilities within the selected platform; and conducting regular audits that include but are not limited to: datetimestamps of access by user, datetimestamp of content accessed by user, datetimestamp of any data downloaded by user, and/or provisioning/deprovisioning of accounts.

Approval and Branding Requirements

1. **Merchandise Sales:** Any merchandise sold via social media accounts or pages must be pre-approved by the RVU Marketing Department.
2. **Naming Conventions:** All social media accounts representing RVU must adhere to University naming conventions for consistent branding across platforms.
 1. **Handles (Usernames):** Accounts on platforms such as Twitter or Instagram should end with "RVU" (e.g., @LibraryRVU).
 2. **Full Name Display:** Accounts on platforms like Facebook or LinkedIn must start with "Rocky Vista University" (e.g., "Rocky Vista University Founders Library").

Professional Conduct and Content Guidelines

1. **Code of Conduct:** Students should refer to the Code of Conduct in the Student Handbook, and employees should consult the Appropriate Conduct and Discipline section of the Employee Handbook to guide decisions about what is and isn't appropriate to post on social media. Negative or unprofessional behavior online may result in consequences like those for in-person behavior.
2. **Content that violates RVU's conduct expectations includes but is not limited to:**
 1. Evidence of drug use
 2. Evidence of criminal activity
 3. Evidence of medical malpractice
 4. Violation of patients' rights
 5. Evidence of workplace abuses (such as theft, harassment, or dishonesty)
 6. Evidence of academic fraud or abuses (cheating or dishonesty)
 7. In the interest of collegiality and inclusion, employees and students may not disparage other students, employees, or schools. RVU is a community and encourages everyone to act as such.
3. **Content Focus:** Posts must be service- or education-based, supporting the objectives of the student club, interest group, track, or department. Posts about student life or RVU culture are permitted if appropriate. Departments and tracks should avoid engaging in political or sensitive topics through affiliated user sites, as they represent RVU. Student clubs, interest groups, and fellows should exercise good judgment in determining appropriate and professional content and avoiding cultural appropriation.
4. **Copyright:** Respect copyright and fair use policies. When posting content, individuals must ensure they have the right to share it, especially if it involves third-party materials. If unsure about posts that may infringe on the copyright and intellectual property rights of others, contact the Marketing Department for further guidance.
 1. The following credits must be included when using photos or videos owned or provided by the Marketing Department: "Photos courtesy of Marketing Department at Rocky Vista University."

Media Inquiries and Confidentiality

1. **Media Requests:** Requests for information or interviews by the media must be referred to the Vice President of Marketing and Enrollment Management. Individual employees or students may not speak to the press on behalf of RVU without prior authorization.
2. **Confidential Information:** Do not post proprietary or confidential information about RVU, including student, alumni, employee, contractor, or partner information or RVU proprietary information, including course content and test information. Be mindful of FERPA regulations and ensure that no personally identifiable student education records are disclosed through social media. Information collected in connection with research may be protected under a Nondisclosure Agreement, research protocol, or other applicable law or agreement.
 1. Any student in photographs that will be posted on social media sites must sign a photo release form before the photo may be posted. Copies of the photo release form can be requested from the Marketing Department.

Authorization and Oversight

1. **Posting Authority:** Authorization is required to post on behalf of RVU or speak on behalf of the University in the social media space. This includes University departments, programs, and student organizations. An approval to post can be rescinded at any time.

1. Personal testimonials and opinions should be presented in first-person, i.e., "My experience..." or "I think..." For further guidelines, see "Posting on Personal Sites" below.
2. RVU Marketing or IT Department Access: The RVU Marketing or Information Technology (IT) Department may request access to any official RVU social media site. Administrators must comply with such requests to ensure oversight and adherence to University policies.

Compliance with Platform Rules

1. Platform-Specific Rules: Follow all rules and regulations specific to each social media platform used (e.g., Facebook (TM), X (formerly Twitter) (TM), LinkedIn (TM), etc.).
2. Compliance with University Policies: Communications on social media sites for University purposes must follow all applicable RVU policies.

Posting on Personal Sites

1. Sharing University News: Employees are encouraged to share RVU news and events that are a matter of public record on their personal social media sites, preferably by linking directly to the source to avoid copyright infringement.
2. Personal Opinions: When sharing views about RVU, make it clear statements are personal views and not on behalf of the University. A disclaimer, such as "The views expressed on this [blog; website] are my own and do not reflect the views of my employer," may be appropriate.
3. University Logo Usage: Do not use the RVU logo on personal social media sites.

Student Associations, Clubs, and Organizations

The Office of Student Affairs must approve all extracurricular activities by University-recognized associations, clubs, or organizations (ACO), both on- and off-campus. Events that involve healthcare/outreach, alcohol, or risky activities must also obtain permission from the Dean and/or other University officials. All activities and events that involve students, faculty, or staff of the University must be appropriately scheduled to avoid conflicts with academic requirements and other professional events. Requests for permission for speakers, student meetings or activities, and other individual or group activities on campus should be made on forms provided by the Office of Student Affairs at least three weeks in advance. The Office of Student Affairs must approve all activities in advance and no meeting announcements may be made until such approval is received.

Students may initiate the development of an association, club, or organization on the University campus by first approaching the Director of Student Life for a consultation. Students will then be required to submit a charter with a mission statement and a copy of the group's constitution or bylaws to the Office of Student Affairs. Each association, club, or organization must have a faculty sponsor approved by the Office of Student Affairs. The ACO will be considered active once the Director of Student Life and the Associate/Assistant Dean of Student Affairs approve the completed application. A variety of associations, clubs, and organizations are available on campus. Please contact the Office of Student Affairs for a complete listing of ACOs.

Student Government Association

The Student Government Association (SGA) is the official governing body for all students at Rocky Vista University. The SGA is composed of officers from the College of Osteopathic Medicine (voted into office by students of the COM), the sitting presidents of first- and second-year classes for the COM, the sitting president of the MSBS class, and the sitting president of the MPAS class. Responsibilities of the SGA include collecting and expressing student opinions, acting as a liaison between the student body and the administration, supporting organization and class activities, and working to improve the quality of life for all students at RVU.

American College of Osteopathic Emergency Physicians

The American College of Osteopathic Emergency Physicians (ACOEP) exists to support quality emergency medical care, promote interests of osteopathic emergency physicians, support development and implementation of osteopathic emergency medical education, and advance the philosophy and practice of osteopathic medicine through a system of quality and cost-effective healthcare in a distinct, unified profession.

American College of Osteopathic Pediatricians

The purpose of the American College of Osteopathic Pediatrics (ACOP) is to foster and stimulate interest among osteopathic medical students in the practice of Pediatrics. National membership includes discounted rates to the National Convention and access to online education and support materials. The local RVU chapter utilizes speakers, community service, public outreach, and cooperation with local clubs and organizations to further the understanding and appreciation of Pediatric Medicine.

American College of Osteopathic Physical Medicine & Rehabilitation

Physical Medicine and Rehabilitation (PMR), also referred to as Physiatry (PM) or Rehabilitation Medicine (RM) is the medical specialty concerned with diagnosing, evaluating, and treating persons with physical disabilities. The primary goal of the physiatrist is to achieve maximum restoration of physical, psychosocial, and vocational function through comprehensive multi-disciplinary rehabilitation.

American College of Osteopathic Surgeons - Medical Student Section

The American College of Osteopathic Surgeons – Medical Student Section welcomes osteopathic medical students interested in surgery or its subspecialties. ACOS-MSS strives to advance the discipline and the knowledge and skills of the individual student with a career interest in surgical fields.

American Medical Women's Association

The American Medical Women's Association (AMWA) is a national organization that also functions at the local level to advance women in medicine and improve women's health. The RVU branch of AMWA is designed to foster female students as leaders in medicine by providing resources to female students, access to networking and mentoring opportunities, and connecting female students with national AMWA initiatives and leadership. Additionally, the AMWA Club seeks to raise awareness of gender equity through outreach and recruitment, by promoting the increased study of women's health issues, and through funding and education initiatives.

American Osteopathic Academy of Sports Medicine

The purpose of the American Osteopathic Academy of Sports Medicine (AOASM) is to advance a mutually respectful relationship among dedicated, competent sports medicine specialists and to provide a quality educational resource for AOASM members, allied health sports medicine professionals, and the general public.

Asian Pacific American Medical Student Association

APAMSA seeks to promote the dissemination of information relative to Asian Pacific American issues in the field of medical education; to explore and possibly resolve the unique challenges, obstacles, and responsibilities specific to Asian Pacific American medical students and physicians; and to provide opportunities for Asian Pacific American medical students to give back to their community through service.

Association of Women Surgeons

The aim of the AWS chapter at RVU-SU is to inspire and enable female students who are interested in surgery (or similar) for the opportunity to network, find mentors, and improve peer relations to develop professional and personal goals. The AWS club is an organization that educates, informs, and empowers all future surgeons, especially underrepresented groups. We strive to provide educational activities aimed at introducing and improving skills and techniques necessary for the future.

Business in Medicine/Financial Literacy Club

The purpose of this club is to further cultivate students' intrigue of the financial and business aspects of medicine and healthcare by allowing students to learn about healthcare economics and personal finance, providing speakers offering guidance regarding the pursuit of financial security and independence, and exposing students to the various opportunities for investing, entrepreneurship, and finance in medicine.

Christian Medical and Dental Society

The Christian Medical and Dental Society (CMDA) is a national organization that began in 1931. The chapter is composed of healthcare professionals and students who are committed to living out their faith through their profession. Benefits of the club include seminars, journals, and newsletters.

Collegium Aesculapium

The Collegium Aesculapium (or Southern Utah Collegium Aesculapium [SUCA]) is an internal organization for LDS and non-LDS, faith-centered medical professionals. The objective of Collegium Aesculapium Foundation, Inc. is to assist members in balancing professional, scientific, personal, and spiritual aspects of their life. The purpose of the Student Chapter of Collegium Aesculapium at Rocky Vista University is to accomplish the Collegium's objective in the lives of students entering the field of medicine.

Colorado Medical Society

Colorado Campus Only

The mission of the Rocky Vista University chapter of the Colorado Medical Society (CMS) is to bring the students of medicine in the state of Colorado into one organization; to promote the science and art of medicine, the betterment of the public health and the unity, harmony and welfare of the medical profession; and to unite with county and district medical societies to form and maintain the Colorado Medical Society.

Community Outreach and Medical Mentors

Utah Campus Only

As a subcommittee of the RVUCOM-SU Chapter of SAACOF, the Community Outreach and Medical Mentors Department is a volunteer-based organization dedicated to providing opportunities for student doctors to serve the community. The COMM is committed to promoting understanding through education, to using experience and knowledge to mentor future student doctors, and to inspiring young minds to pursue careers in science and medicine.

Dermatology/Pathology

The Dermatology/Pathology ACO is formed of RVU students that are interested in learning more about pathology—a specialty of medicine that is dedicated to the study of disease, the processes of disease, and how departure from the normal inner workings of the body impact the person as a whole. Students will be introduced to the overview of pathology as a medical specialty and learn what pathology will encompass in the academic environment. DERM/PATH endeavors to introduce students to current pathological issues through events, speakers, and journal ACO presentations. DERM/PATH also focuses on bringing to light pathology residency options (with attention to

COMLEX and USMLE scores and test differences), potential shadowing experiences, presentations of gross specimens throughout the academic semester, student tutoring, fundraising for humanitarian and research causes, and the delicate balance between the practice of medicine and the pathology behind it. Any current student or entering student is encouraged and welcome to join DERM/PATH if they are considering pathology as a specialty, are interested in delving further into the realms of pathology, or would like to enhance their academic learning!

Global Health Club

The Rocky Vista University College of Osteopathic Medicine – Southern Utah Global Health Club is established in recognition and support of global health outreach programs and the effort to provide primary healthcare to underserved people worldwide. Primarily, GHC promotes and supports global outreach efforts to marginalized and underserved communities, works to expose students to diverse ethnic and cultural groups promoting cultural sensitivity and advocacy, and provides students with global educational learning experiences.

Global Medicine Outreach

The Global Medical Outreach Club (GMO Club) at RVUCOM is established in recognition and support of global health outreach programs and efforts to provide healthcare to underserved people worldwide. This club arranges speakers, events, and programs for students to explore areas of medicine that they ordinarily would not have the ability to access in their university training. This includes service to medically underserved communities abroad, as well as within the United States. It promotes exposure to diverse ethnic and cultural groups and fosters cultural sensitivity and advocacy for vulnerable populations. GMO Club offers insight to student physicians looking to participate in various medical missions.

Gold Humanism Honor Society

The mission of the Gold Humanism Honor Society (GHHS) is to recognize individuals who are exemplars of humanistic patient care and who will serve as role models in medicine throughout their careers. The power of the Society brings them together to sustain their own humanism and to inspire and nurture humanism in others. GHHS recognizes, supports and promotes the values of humanism and professionalism in medicine. The Society is committed to working within and beyond medical education to inspire, nurture and sustain lifelong advocates and activists for patient-centered medical care.

Integrative Medicine Club

Integrative Medicine Club (IMC) club is meant to embody the osteopathic model of viewing the body as a whole and looking through various lenses of treatment. The club provides students with information and opportunities to understand, explore, and pursue various treatment modalities and aid in expanding knowledge on topics such as meditation, yoga, nutrition, Eastern medicine, and functional medicine.

Internal Medicine Interest Group

The RVU Internal Medicine Interest Group exists to provide early exposure to students of the many facets of internal medicine. Those involved in the RVUIMC have the opportunity to attend monthly meetings with speakers from general internists, hospitalists, and the different specialties in internal medicine. Some of the internal medicine specialties include Cardiology, Pulmonology, Gastroenterology, Infectious Disease, and Rheumatology. Lunch is provided to club members at these meetings. Additionally, RVUIMC members have the opportunity to attend conferences held by the American College of Physicians (ACP) and the American College of Osteopathic Internists (ACOI). Part of the cost to attend these conferences is reimbursed from club funds.

Interprofessional Addiction Medicine Student Interest Group

IAMSIG aims to promote an interdisciplinary, interprofessional discussion of current and future issues relating to licit and illicit drugs in medicine and society, and to brainstorm, create, and engender productive solutions to healthcare

barriers in the context of recovery and rehabilitation from addictive substances. Additionally, our goal is to critically examine political, social, and economic landscapes of the opioid crisis – and all drugs- through interprofessional education and collaboration.

LatinX Club

The mission of the Latinx Club at the Rocky Vista School of Osteopathic Medicine is to promote the advancement of Latinx medical and MSBS students and unify with other students who are interested in Latinx culture through service, education, mentorship for the purpose of advocating for Latinx community and healthcare rights. Latinx hosts events to advocate for social change and to build community.

Lifestyle Medicine Club

The purpose of LMC is to provide information about the specialty of Lifestyle Medicine and educate members about evidence-based practice of helping individuals and families adopt and sustain healthy behaviors that affect health and quality of life. LMC strives to educate and foster an interest in lifestyle medicine practice and to promote prevention and healthy lifestyle changes.

Medical Research Club

The Medical Research Club's focus is to provide opportunities for students to engage in medical research while in medical school through attending medical research lectures and conducting clinical/benchtop research. This club allows students to learn about and participate in graduate level research and provides speakers who offer guidance regarding the pursuit of medical research opportunities.

Medical Student Pride Alliance

The Medical Student Pride Alliance (MSPA) is a social organization committed to empowering sexual and gender minority medical students, other health professional students, and allies through activism to increase the number of physicians and other health care providers trained in LGBTQ+-inclusive healthcare, while also addressing the unique needs of LGBTQ+ communities through research, advocacy, and service.

Medical Students Advocates for Underserved Populations

Utah Campus Only

Medical Students Advocates for Underserved Populations (MSAUP) is a club that focuses on assessing the needs of underserved populations within the community, creating projects to help meet those needs, collecting and interpreting data based on the identified underserved population and developing partnerships with like-minded organizations in the community. We currently partner with Youth Futures and Switchpoint, local homeless shelters, for various projects. We also host Naloxone training, participate in an annual Giving Tree activity for the holidays, and co-sponsor several other events throughout the year.

Obstetrics & Gynecology Club

The Obstetrics & Gynecology Club (OB/GYN) is passionately committed to excellence in women's health. With integrity, OB/GYN seeks to educate and support osteopathic healthcare professionals to improve the quality of life for women. In doing so, OB/GYN provides opportunities for fellowship and joy in our profession. OB/GYN is a sub-club of SAACFP.

Osteopathic Medical Student Coalition of the Colorado Society of Osteopathic Medicine

The OMSC promotes the public health and art and science of osteopathic medicine by bringing into one organization the students of medicine enrolled at fully accredited institutions granting Doctorates of Osteopathic Medicine (DO) in the state of Colorado. The OMSC aims to encourage active participation in the legislative process to advocate for our patients and our profession, advance the professional knowledge of surgery, obstetrics and the prevention, diagnosis and treatment of disease in general, and encourage the establishment and expansion of the training and education of osteopathic physicians within the State of Colorado. Additionally, the OMSC aims to unite with county and district medical societies to form and maintain the Colorado Society of Osteopathic Medicine, hereafter also referred to as CSOM; and, ensure that the evolution of the osteopathic principles shall be an ever-growing tribute to Andrew Taylor Still, M.D., D.O. who made possible osteopathy as a science.

Physical Medicine and Rehabilitation Club

The purpose of PM&R is to provide osteopathic students with the opportunity to be exposed to physical medicine and rehabilitation as a potential field of medicine for them to explore. This club strives to provide events that allow students to learn about certain aspects of PM&R, give students exposure to PM&R and its related modalities of healing, and allow students to gain skills related to the field of PM&R.

PsychSIGN

Utah Campus Only

SIGN (Student Interest Group in Neurology) / PsychSIGN (Psychiatry Student Interest Group Network) aim to provide opportunities for RVU students to learn more about the fields of Neurology and Psychiatry as well as the role of allied health professions that support Neurologists and Psychiatrists. SIGN/PsychSIGN develops programs and events that allow students to participate in lecture-based learning, service-based activities, and hands-on clinical exposure activities.

Radiology, Ophthalmology, Anesthesia, & Dermatology Club

The purpose of this organization is to further cultivate students' intrigue of the field of radiology, ophthalmology, anesthesia, & dermatology through speaker lectures and the learning of techniques via experience professionally guided labs.

Rotary Community Corps of Rocky Vista University

Colorado Campus Only

The Rotary Community Corps of Rocky Vista University was formed in conjunction with the Rotary Club of Parker. The RCC/RVU is involved in service projects within the community and also supports projects sponsored by the Rotary Club of Parker.

RVU Internal Medicine Club

The RVU Internal Medicine Club (RVUIMC) exists to provide early exposure to students of the many facets of internal medicine. Those involved in the RVUIMC have the opportunity to attend monthly meetings with speakers from general internists, hospitalists, and the different specialties in internal medicine. Some of the internal medicine specialties include Cardiology, Pulmonology, Gastroenterology, Infectious Disease, and Rheumatology. Lunch is provided to club members at these meetings. Additionally, RVUIMC members have the opportunity to attend

conferences held by the American College of Physicians (ACP) and the American College of Osteopathic Internists (ACOI). Part of the cost to attend these conferences is reimbursed from club funds. Finally, the RVUIMC hosts a blood drive in the fall and assists in teaching clinical skills to first year students.

RVU Ultrasound Interest Group

The USIG is designed to build leadership in the use and understanding of ultrasound technology, specifically at the patient bedside or point-of-care. Through education, the main goal is to teach and encourage proper use of this tool in the clinical setting. The USIG is a mentorship program open to all students at RVUCOM. Students will have the opportunity to learn, practice, and hone their ultrasound skills during monthly workshops.

Sigma Sigma Phi

Sigma Sigma Phi is the National Osteopathic Honor society for Osteopathic Medical Students. Rocky Vista University's Chapter is Omicron Theta, and membership is by invitation only. To be eligible to apply for membership, students must rank within the top 25% of their class, have a cumulative GPA of at least 80.0%, and have no honor code violations. Eligible students will receive an invitation to apply. Invitations are sent out at the end of each semester.

SIM Scholar Club

The Sim Scholar Club's mission is to facilitate realistic learning environments for medical students to practice and develop teamwork, communication, and technical skills that will be fundamental to their future clinical safety and success. This is accomplished through simulation events in surgical, emergency, and obstetrics labs while accompanied by physicians from the medical community who offer guidance and constructive feedback on how to handle the presented cases.

Simulation in Medicine Club

The SIM Club mission is to facilitate realistic learning environments for medical students to practice and develop teamwork, communication, and technical skills that will be fundamental to their future clinical safety and success. This is accomplished through simulation events in surgical, emergency, and obstetrics labs while accompanied by physicians from the medical community who offer guidance and constructive feedback on how to handle the presented cases.

Psych Club - Colorado

The purpose of Psych Club shall be to promote awareness of mental health within all branches of medicine, provide opportunities for students to learn about Psychiatry as a specialty, and host events, allowing students to improve their knowledge and skill sets in addressing mental health concerns both in their private and professional life. Psych Club is part of the PsychSIGN club.

Student American Academy of Osteopathy

The Student American Academy of Osteopathy (SAAO) is a professional organization dedicated to serving osteopathic medical students. It is the COM's extension of the American Academy of Osteopathy (AAO), a national association established in 1937. The academy maintains the goal of developing the science and art of total healthcare, with an emphasis on palpatory diagnosis and the use of osteopathic manipulative medicine. Membership in SAAO allows students to receive AAO publications and to attend the annual convocation, both at reduced prices.

Student American Osteopathic Association of Orthopedics

The mission of the Student American Osteopathic Association of Orthopedics (SAOAO) is to form a bridge between Osteopathic Medicine and Orthopedic Surgery, in order to create a holistic functioning system to provide all members with the opportunity to change the future of Osteopathic Orthopedic medicine by being well-educated and experienced healthcare practitioners.

Student Association - American College of Osteopathic Family Physicians

The objective of the undergraduate chapter of the American College of Osteopathic Family Physicians (ACOF) is to advance the specialty of family practice in the field of osteopathic medicine and surgery. The organization works toward the advancement of family practice and recognition of the importance of the family practitioner's role in the context of osteopathic medical services in the community. The chapter advances the role of the family practitioner as the backbone of modern medical practice. Membership in this organization entitles students to benefits such as seminars, educational programs, and financial support to various family practice conferences.

Student Association of Military Osteopathic Physicians & Surgeons

Student Association of Military Osteopathic Physicians and Surgeons (SAMOPS), the student chapter of this national organization, is open to all College of Osteopathic Medicine students in the military or public health service. The chapter serves as liaison between on-campus military students and those on clerkships or military alumni.

Student National Medical Association

The purpose of the SNMA is to support current and future underrepresented minority students, addressing the needs of underserved communities, and increasing the number of clinically excellent, culturally competent, and socially conscious providers. SNMA aims to equip, support and create a safe space at RVU for underrepresented students, to advocate and represent underrepresented students, and to help guide and support the development of medical education that is sensitive to the needs of diverse populations to mold socially conscious providers. We also strive to educate RVU and the surrounding community regarding current healthcare disparities in the U.S, with a focus on minority affairs.

Student Osteopathic Medical Association

The Student Osteopathic Medical Association (SOMA) is the official organization for osteopathic medical students and the affiliated student organization of the American Osteopathic Association. Its purpose is to advance the osteopathic profession, advocate for public health and welfare, and to represent the views and opinions of osteopathic medical students. SOMA national affiliations with similar groups at other schools provide the largest network for information exchange and interaction available today. Membership in SOMA brings many benefits, including free subscriptions to Student Doctors and Medical Students and discount prices on diagnostic equipment, the Preceptorship Program, SOMA scholarships, life insurance programs, and more. Locally, SOMA is involved in the school, hospital, and citizen communities through various service projects and socials.

Ultrasound Society Club

The Ultrasound Society is designed to build leadership in the use and understanding of ultrasound technology, specifically at the patient bedside or point-of-care. Through education, the main goal is to teach and encourage proper use of this tool in the clinical setting. The USIG is a mentorship program open to all students at RVUCOM. Students will have the opportunity to learn, practice, and hone their ultrasound skills during monthly workshops.

The Wilderness Medicine Society Student Interest Group

The Wilderness Medical Society Student Interest Group (WMSIG) is a sub-committee under ACOEP with the purpose of advancing, healthcare, research, and education related to wilderness medicine. This group promotes the preparation for participants to become more adept at rendering emergency medical care in remote and austere environments.

Frequently Used Terms

Acronym or Term	Meaning
AAMC	Association of American Medical Colleges
ACLS	Advanced Cardiovascular Life Support (certification)
AACOM	American Association of Colleges of Osteopathic Medicine
AACOMAS	The centralized online application service for US colleges of osteopathic medicine
AOA	American Osteopathic Association
ARC-PA	Accreditation Review Commission on Education for the Physician Assistant
BLS	Basic Life Support (certification)
Basic Science Curriculum (BSC)	A required classroom session in which faculty stress application of previous basic science material to clinical case scenarios. The emphasis is on application, integration, and interaction between faculty and students versus passive learning.
Careers in Medicine	AAMC program that provides students with access to information about medical specialties, preparation for residency and practice options to maximize career potential.
Class Rank	A measure of how a student's performance compares to other students in the same class/program. Class rank is calculated based on total number of quality points earned.
Clinical Integration Session (CIS)	A required classroom session in which faculty stress application of previous material to clinical case scenarios. The emphasis is on application, integration, and interaction between faculty and students versus passive learning.
COCA	Commission on Osteopathic College Accreditation
COMLEX	Comprehensive Osteopathic Medical Licensing Examination
CV	Curriculum Vitae; a short account of one's career and qualifications
DEIB	Diversity, Equity, Inclusion, and Belonging
DSA	Designated Student Assignment; a "self-study" assignment created by an identified faculty member consisting of a specific reading assignment, learning objectives, and examination questions that will not be accompanied by a lecture or laboratory session. Students are held responsible for DSA assignments during a CIS, quizzes, and examinations.
ECE	Early Clinical Experience
ERAS	The Electronic Residency Application System is an AAMC application that offers a centralized online application service used to apply to residency programs.
Examination	A summative evaluation of student learning outcomes delivered via proctored written format, computerized format, or practical format.

Acronym or Term	Meaning
ExamSoft/ Exemplify	Exam software used to provide a secure and stable testing environment for students.
Exxat	New software portal used to manage clinical clerkship rotations throughout the PA program and clerkships through the third and fourth years of the DO program.
Fellowship	The fellowship program is a 12-month training program integrated within the DO student's third and fourth clinical clerkship years. An additional year is added to the student's osteopathic medical training to accommodate his/her clinical clerkship and fellowship obligations. The fellowship program affords students the opportunity to teach the science and art of osteopathic principles and practice, simulation or anatomy.
FERPA	Family Educational Rights and Privacy Act of 1974, which is a federal law that protects the privacy of and access to personal student educational information
Global Block Schedule (GBS)	Basic schedule of when courses in the DO program run each semester. This schedule does not provide detailed information regarding start and end times or assigned classroom
GME	Graduate Medical Education
Grade Point Average (GPA)	An indication of a student's academic achievement while enrolled at RVU. GPA is calculated as the total number of quality points received over a given period divided by the total number of credits attempted
HIPAA	Health Insurance Portability and Accountability Act of 1996 is United States legislation that provides data privacy and security provisions for safeguarding medical information.
HLC	The Higher Learning Commission; RVU's current institutional accreditor
IPE	Interprofessional Education; occasions when two or more professions learn with, from and about each other to improve collaboration and the quality of care
IRB	Institutional Review Board for Human Subjects Research
Laboratory	A minimum 50-60-minute session in a laboratory or clinical setting that requires "hands on" instruction
Lecture	A standard didactic presentation involving direct faculty instruction in a classroom setting, lasting a minimum of 50 minutes. Each hour of lecture (50 minutes) assumes a minimum of two (2) hours of out-of-class student work.
LMS	Learning Management System; a software application for the administration, documentation, tracking, reporting and delivery of educational courses. RVU currently utilizes an integrated LMS that can be accessed directly through MyVista.
LOR	Letter of Recommendation, typically written by a faculty member or preceptor (author). Used when applying for clinical clerkship clerkships and/or residency applications.
Lottery	Managed by the Department of Clinical Education, the Lottery is the Distribution of Clerkship Assignments process in which current OMS II student doctors are assigned a geographical region to complete core clinical clerkships during OMS III and, if necessary, OMS IV.
MODS	The Medical Operational Data System used to complete the initial electronic portion of the Military GME application
MSPE	Medical School Performance Evaluation; can also be referred to as a Dean's Letter. Honest and objective document summarizes a student's personal attributes, experiences, academic accomplishments, and summative evaluation. All fourth-year medical students will have their MSPE composed and finalized before October 1st of each year and uploaded into ERAS by the Office of the Registrar.
MyVista	RVU's online portal where students, faculty, and staff can log into and access important program, financial, campus, and educational information, as needed.
NBME	National Board of Medical Examiners (administers the USMLE exams)
NBOME	National Board of Osteopathic Medical Examiners (administers the COMLEX exams)
New Innovations	System used to manage clinical clerkship clerkships throughout the third and fourth years of the DO program.
NMS	National Matching Services; service that manages the osteopathic match (among others)
NRMP	National Resident Matching Program; service that manages the allopathic match
OMM	Osteopathic Manipulative Medicine
OPP	Osteopathic Principles and Practice
OSCE	Objective Structured Clinical Examination
Post-Exam Review (PER)	Faculty-led review of examination questions and results following a major examination.
Preceptor	A practicing physician who gives personal instruction, training, and supervision to a medical student or young physician (assigned for each clinical clerkship clerkship).
Quality Points	The cumulative points earned in a given program for coursework completed and grade(s) earned. Points are calculated by multiplying the numeric grade (in the DO program) or the assigned quality points based on the letter grade (MSBS program) by the number of credit hours for the course.
Remediation	The opportunity to remedy a previously-failed attempt
Rocky the Fighting Prairie Dog	RVU's mascot for the Colorado campus
Rocky the Roadrunner	RVU's mascot for the Southern Utah campus
RVUCOM	Rocky Vista University College of Osteopathic Medicine
RVUCOM-SU	Rocky Vista University College of Osteopathic Medicine - Southern Utah
San Francisco Match	Residency and Fellowship matching service for select specialties.
Semester Credit Hour (SCH)	A credit hour is an amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutionally-established equivalency that reasonably approximate no less than 45 hours of instructional/non-instructional time for every one (1) credit.

Acronym or Term	Meaning
Shadowing	Opportunity available to students to observe the daily life of a doctor and obtain insight from professionals about their experiences and how they view their field
Shelf Exam	Required exam administered by the Office of Clinical Education after the completion of each Core Clerkship.
SOAP Notes	An acronym for subjective, objective, assessment, and plan, a SOAP note is a method of documentation employed by healthcare providers to write out notes in a patient's chart
Standardized Patient (SP)	Someone who has been trained to portray, in a consistent, standardized manner, a patient in a medical situation
Titer/Titer Lab Report	A titer (pronounced TIE-der) is a laboratory test that measures the presence and amount of antibodies in blood. If the test is positive (above a particular known value) the individual has immunity. If the test is negative (no immunity) or equivocal (not enough immunity) you need to be vaccinated. A Titer Lab Report is generated by the lab that tested the blood sample. The Titer Lab Report must include the test type, exact values (reference range), signature, and date to be acceptable.
Tracks	Extracurricular admission-based concentrations within the DO program that invite students to explore and experience a particular area of medicine closely.
Transcript	An official record of a student's work, showing courses taken and grades achieved
Urology Match	Residency match program for medical students seeking residency in Urology
USMLE	United States Medical Licensing Examination
Visiting Student Learning Opportunities (VSLO)	The AAMC VSLO program merged two existing visiting student programs: the Visiting Student Opportunities (VSLO) Application Service (VSAS®) program that focused exclusively on U.S. domestic (formerly VSAS) away electives and the Global Health Learning Opportunities (GHLO®) program that facilitated international mobility into the U.S., from the U.S. to electives abroad, and from one non-U.S. location to another.
